Governor: Goal is ‘economic prosperity’
Herbert announces support for moving state prison and Tooele County may be considered as a preferred site

by Tim Gillen
DOW WHITMER

After three years of pushing economic recovery, Gov. Gary Herbert stepped to the podium in the Utah House of Representatives Wednesday night and said it’s time to look forward to greater success.

"As we look to the future, we shift our focus from economic recovery to economic prosperity," he said.

Herbert also championed Utah’s commitment to education and challenged citizens, government and industry to adopt conservation and efficiency efforts to protect Utah’s air quality and iconic outdoor recreation.

The governor announced his support to relocate the Utah State Prison, an effort that may turn into an opportunity for Tooele County.

Herbert pointed out that Utah’s economy is growing at a rate of 2.0 percent, more than double the national economic growth rate of 1.4 percent.

"On Utah’s road to recovery, our course is sure, with a steady hand and fiscal gears on prosperity ahead, we are leading this nation out of the great recession," he said. "We must not waver, we must remain vigilant, vigilant in protecting Utah’s economic recovery and our opportunities for prosperity.

Jobless rate dropped during 2012
Yet local economy called ‘sluggish’ due to effects from recession

After three years of increasing unemployment, Tooele County’s jobless rate dropped for the second consecutive year in 2012.

The annual unemployment rate was 6.5 percent, down from 6.9 percent in 2011. It was still well above the country’s 2010 average of 7.4 percent, according to statistics released last week by the Department of Workforce Services.

For comparison, the 2012 annual unemployment rate for the state was 7.7 percent while the nationwide jobless rate was estimated at 8.1 percent.

The state’s unemployment rate was largely driven down by the jobless rate in Eagle County, which had a 3.7 percent jobless rate last December.

Residents asked to clear snow from hydrants

by Lisa Christensen

Tooele City residents are asked to do a little extra snow-clearing this winter — especially around nearby fire hydrants.

Bucky Whitehouse, public information officer for the Tooele Fire Department, said firefighters may not be able to find or access fire hydrants because of accumu-

lating ice and snow.

"Any time we get a lot of snow, we just ask residents who happen to live near fire hydrants, to help us out and remove the snow," he said. "It delays our response, such as putting out a fire, if we have to"

- To date, Carter said, they have received over 300 items on hold and Tooele owns a copy and you’re from Tooele, you’re already on hold for that book. Carter said. "If you’re from somewhere else, they probably have that book available to the next Tooele patron on that waiting list.
- After the grant was received in October, Carter said the library started building its collection in November. December, the library designed a non-drug program for teenagers. Patrons were invited to come into the library and be driven different types of Kindles, Nooks and Apple devices to read as e-reader would work best for them.
- Because of e-readers fast-growing popularity, Carter said, "With the number of e-books continuing to grow, it is important that we continue to market the content on e-books that are now available to library users to bring in their e-devices."
- "We think we’ll have more classes, because on Mother’s Day last year, the library sent out 1,000 e-books and e-readers, and I think Carter said, "We’re great for library demonstrations and test-drives."
- "If we end up with 20 copies of the same item, people will call us and say, ‘I want to do this tomorrow,’ " Carter said. "We have less than 100 copies of the same items owned by the state, if you don’t have Tooele own a copy, your from Tooele, you’re already on hold for that book. Carter said. Tigers scratch out close win over SHS

by Richard Roper

The win over Tooele back on Dec. 21 was the last time Granger missed the playoffs. Granger lost to 16th-ranked City View Wednesday night 57-29 in Bear River. The Bears jumped out to a 17-4 advantage after the first quarter and the Cougarsbitset in the backcourt in the second half when they cut the lead to 44-34 at intermission. Bear River took control in the third quarter, outscoring Granger 26-14 to seal the win. Both teams used several playmakers, and another one scored 8 points, and hit six 3-pointers to see Morgan’s Jake Miles respond with his fourth 3-pointer of the game to tie it at 27-27. The Buffaloes were destroyed, Morgan’s full-court press in the first quarter to score points against the Buffaloes in the second half. After Morgan time-out, the visitors came back on the floor and surged ahead 36-29 and then pushed the lead to 44-34 at intermission. “Although we were keeping up with them I knew we were in trouble trying to match them by shooting 3-pointers,” Faux said. “With this team we really need to attack inside and we were getting away from our game plan a bit.” Faux added that the Trojans were able to use their height advantage in the game. “We were pounding the ball inside and using them as a screen.” Faux said, “We went into a 1-3-1 zone and we were able to use our height advantage.” Faux added that the Trojans were able to get to the free-throw line and force the Mustangs to the foul line early in the game. “We have some kids that are good at free throws,” Faux said. “We have some kids that are good at free throws.” Faux added that the Trojans were able to get to the free-throw line and force the Mustangs to the foul line early in the game. “We have some kids that are good at free throws.” Faux said. “We have some kids that are good at free throws.” Faux added that the Trojans were able to get to the free-throw line and force the Mustangs to the foul line early in the game. “We have some kids that are good at free throws.” Faux said, “We have some kids that are good at free throws.” Faux added that the Trojans were able to get to the free-throw line and force the Mustangs to the foul line early in the game. “We have some kids that are good at free throws.” Faux said, “We have some kids that are good at free throws.” Faux added that the Trojans were able to get to the free-throw line and force the Mustangs to the foul line early in the game. “We have some kids that are good at free throws.” Faux said, “We have some kids that are good at free throws.” Faux added that the Trojans were able to get to the free-throw line and force the Mustangs to the foul line early in the game. “We have some kids that are good at free throws.” Faux said, “We have some kids that are good at free throws.” Faux added that the Trojans were able to get to the free-throw line and force the Mustangs to the foul line early in the game. “We have some kids that are good at free throws.” Faux said, “We have some kids that are good at free throws.” Faux added that the Trojans were able to get to the free-throw line and force the Mustangs to the foul line early in the game. “We have some kids that are good at free throws.” Faux said, “We have some kids that are good at free throws.” Faux added that the Trojans were able to get to the free-throw line and force the Mustangs to the foul line early in the game. “We have some kids that are good at free throws.” Faux said, “We have some kids that are good at free throws.” Faux added that the Trojans were able to get to the free-throw line and force the Mustangs to the foul line early in the game. “We have some kids that are good at free throws.” Faux said, “We have some kids that are good at free...”
Wrestlers will vie for victories at region tourney in Garland

By Richard Valdez

Three Tooele County wrestling teams will host the Region 11 tournament this year.

Stansbury Wrestling

Stansbury wrestling coach Bob Riley is making some noise as they tangle with the Bear River High School, Morgan, Ogden and Ben Lomond, hoping to bring home some hardware after the dust settles.

Bear River High School is the defending Region 11 tournament champion and appears to be the favorite again this year. Tooele’s only loss in region was to Bear River, and the Buffaloes hope to give the Bears all they want as they battle for the region title.

Tooele lost its 116 pounder at the last weekend when Jacob Loes broke his arm during a match. Each team has had some injuries in the past month, but hope to make necessary adjustments to their lineups, bringing their strongest team to the regionals.

Weights for Friday are at 1 p.m., with the first round beginning at 3 p.m. The second and third rounds will follow the opening round with one championship round followed by consolation rounds.

Saturday, the weights will be held at 10 a.m. and round four, with the championship semifinals and the consolation rounds, are set to begin at 11 a.m. Round five, which will be the consolation semifinals, will follow round four.

Once a lunch break around 1 p.m. Round six should begin around 2 p.m. The matches for third through eighth places, along with a true third place will be wrestled.

The championship finals are set to start at approximately 6 p.m. Medals will be awarded to the top eight finishers in all weight classes. Outstanding Wrestler award for the boys and upper weights. The Region 11 team trophy will be presented to the top team.

Next week, Region 11’s top wrestlers will move to Ridgfield on Feb. 9-10 to wrestle in the district tournament. The top eight placers in each weight class will qualify for the 3A state tournament to be held at Utah Valley University on Feb.

Three Tooele County wrestling teams will host the region tourney this year. Bear River High School is the defending champion and appears to be the favorite again this year. Tooele’s only loss in region was to Bear River, and the Buffaloes hope to give the Bears all they want as they battle for the region title.

Skiing is not only a tradition, but also a lifestyle for one local family.

**Hitting the Slopes**

Skiing is not only a tradition, but also a lifestyle for one local family.

**STORY RACHEL JACKSON**

A fresh layer of snow blankets the slopes of the Sierra Nevada Mountains. Father, son, and daughter are the first ones on the ski lift. It has always been important for the three of them to be up early— not just to experience the best snow of the day, but also to spend time together and create precious memories as a family.

The daughter, Sue Anderson, grew up in the mountains of Tahoe, Calif., with her family, which is a city known for both its summer and winter attractions because it was founded on both a mountain range and a lake.

Our family decided to trade in the Sierra cement for the ‘greatest snow on earth.’

How to sync your computer’s clock

It is important to keep your computer’s clock accurate so your software functions properly. If your clock is off by even a small amount, it can cause issues with time-sensitive applications.

To sync your computer’s clock:

1. Go to the Control Panel by pressing the Windows key + X and selecting “Control Panel.”
2. Click on “Clock, Language, and Region.”
3. In the “Date and Time” section, click “Change date, time, or time zone.”
4. Click “Change time zone” and select your current time zone.
5. Click “Change the date, time, or time zone.”
6. Enter the correct time and date, and select your time zone.
7. Click “OK” to save your changes.

By following these steps, you can ensure that your computer’s clock is accurate and functioning properly.

One of the strategies to manage your debt is to lower the interest rate on your credit card, which can help you pay down your balances faster. You can negotiate with your credit card issuer to get a lower rate, or you can consider transferring your balance to a card with a lower rate.

Another strategy is to create a budget and stick to it. By setting a monthly budget and tracking your expenses, you can see where your money is going and make adjustments to reduce your spending. This can help you free up more money to pay down your debt.

In addition, consider reducing your monthly payments by paying off any balances you have on your credit cards. This can help you reduce your overall debt and improve your credit score.

When you don’t have extra money to pay down your debt, you can consider making minimum payments on your credit cards. This can help you manage your debt in the short term, but it can also result in higher interest charges over time.

If you’re struggling to make your minimum payments, you can consider contacting your credit card issuers to negotiate lower minimums or to set up a payment plan. Some issuers may offer hardship plans for customers who are facing financial difficulties.

Finally, consider seeking help from a credit counseling agency. These agencies can provide you with personalized advice and resources to help you manage your debt. They can also help you create a budget and develop a plan to pay down your debt.

Remember, paying down your credit card debt is a process that requires time and effort. By following these strategies, you can take control of your debt and improve your financial situation.

Do Not Disturb!

Each August the woodchuck, also known as a groundhog, goes on an eating binge. He starts to eat and eat and eat. A layer of fat that is at least \frac{1}{2} inch thick forms on its body. Before it gets sleepy, the woodchuck builds an underground home with tunnels and rooms, with a soft mattress of grass and leaves in the bedroom. As the weather gets colder in the fall, the fat woodchuck heads for its bedroom.

The woodchuck curls up into a ball and falls into such a deep sleep that it appears dead. This is called hibernation. Its heart slows from 600 to about 200 beats per minute to only about 100. Its body temperature drops from 99 to about 58 degrees Fahrenheit to about 59. A hibernating woodchuck could be rolled around like a ball, and it would not wake up!

Meet Phil

On Groundhog Day, weather forecasters in the U.S. look to Punxsutawney Phil for advice. Here’s his story.

On February 2, the town of Punxsutawney, Pa., begins the big Groundhog Day celebration before sunrise.

As the sun rises, I get ready to emerge from my stump. All eyes are on me!

The legend says that if the sun is out, I see my shadow, get scared, and hide back in my burrow, and spring will not arrive for another six weeks.

But if the sun isn’t shining, then there are no shadows to be seen. I stay out looking for food, and spring will arrive very soon!

Chinese New Year is the sort of
crunchy snack food that you
think of during this time of
year. It’s a staple during the
tradition of big blowout parties.
The Chinese New Year is a time
to come together with family,
friends, and loved ones to
celebrate the start of the year. It’s
a time to enjoy the many
crunchy snacks that are
associated with this
tradition.

In this recipe, we’ll
create a crunchy topping
for shrimp toast. This
snack is perfect for
enjoying with a glass of wine
or a cold beer on a warm
summer day.

Ingredients:

- 1/2 cup cooked and
  peeled shrimp
- 1/2 teaspoon finely grated
  fresh ginger
- 1/2 teaspoon soy sauce
- 1 egg white
- 2 scallions, finely chopped
- 2 tablespoons shelled
  cashews
- 2 tablespoons sesame
  oil

Instructions:

1. Preheat the oven to 375°F.
2. In a mixing bowl, stir together
  the shrimp, ginger, soy sauce,
  egg white, scallions, cashews,
  and sesame oil. Mix well.
3. Heat a non-stick skillet over
  medium heat. Add the shrimp
  mixture and cook for about 4
  minutes, or until the shrimp
  is cooked through.
4. Remove the skillet from the
  heat and stir in the
  sesame oil.

Getting Social Security help may boost your benefits

Dear Senior Source,

Are there any services that you can recommend that help pre-retirees decide when to start claiming their Social Security benefits? My husband and I will definitely have some unfinished business to do this year. We can’t necessarily retire and expect to cover our expenses. We might also not be in a class by ourselves. We are fortunate in that our children and grandchildren are all doing well. However, there are many other factors that you need to take into account when you make your decision. Our advice is to consult with Social Security experts to help you maximize your benefits.

To get started, your first step is to go to the Social Security Administration’s website (socialsecurity.gov) and use the Garrett Planning Advisor (socialsecurity.gov/applications). This calculator can help you determine your Social Security benefits.

Dear Senior Source,

Are you aware of any sites that can help me get a job? I’d love to get back into the workforce and feel like we can definitely have some unfinished business to do this year. Earnhardt Jr. pleased with health, sport

During the second day of a four-day pre-season training session, Dale Earnhardt Jr. spent part of his lunch break speaking with the “SIRIous Fan” about the new car.

“Overall, I think it’s a good company (Hendrick Motorsports) that excels at times when it needs to,” he said.

However, he also pointed out that the Martinsville team is not quite as strong as the others when it comes to running at Martinsville Speedway.

“I really don’t look back that much. I only look back on the positives when I think about what I did last year. It was a disappointing year. It was a disappointment not to finish as well as we did. But we had the chance to win the championship. We’re still learning. We’re still going to have a chance to do something great and really make a big impact.”

Rogue is best selling crossover/SUV of Nissan's fleet of seven

Q: Altoro, what is Nissan's best-selling vehicle?
A. Nissan Sentra
B. Nissan Versa
C. Nissan Rogue
D. Nissan Maxima

Rogue is best selling crossover/SUV (SUV) of Nissan's fleet of seven through the first nine months of 2012 according to the company, which has outsold every competitor in this important segment. The Rogue is a crossover/SUV and is the only convertible SUV in the category including the QX56 available in recent times. Nissan alone has seven entries in the category including their unique CrossCabriolet® variant, the only convertible in the category.

The Rogue is quickly becoming a virtual 360-degree view around airports in some areas. The camera images combine to show not only the vehicle. This can be very helpful when parking or backing out of a parking place. You can actually see someone walking in front of the vehicle. This also helps to check out tight maneuvering spaces for added safety.

Another new feature for 2013 is the new Premium Edition that adds fog lights, Bluetooth® audio and navigation. This is a big deal, especially for Nissan, because the Rogue is one of only a few cars with available features. The Meritor uses four small super wide angle cameras mounted in the front, on both sides, and in the rear. When they are all active, the camera images combine to show a virtual 360-degree view around the vehicle. This can be very helpful when parking or backing out of a parking space.
