** Sheriff's department checked for misconduct  

*Investigation checking into possible misuse of money*

by Lisa Christensen

An investigation into at least one person in the Tooele County Sheriff's Office is under way, possibly regarding a suspected misuse of money held in evidence, a county official confirmed Thursday. According to a May 30 press release, investigators not affiliated with the sheriff's office are currently looking into allegations of misconduct. Wade Mathews, public information officer for Tooele County, said the confirmation about the investigation was prompted after an influx of media queries, which had apparently been spurred by an anonymous email.

“We were contacted by the media and after discussing it with the county attorney, determined that it would be in the best interest to confirm that an investigation is under way. We can confirm that an investigation is under way,” he said, adding, “We are looking into this along with the investigators,” he said.

Mathews would not specify on what or whom the investigation is centered, but confirmed that the allegations were in regards to a possible misuse of funds held in evidence.

Reportedly, a sum less than $50,000 in funds being investigated during the course of an investigation may have been misused. However, Tooele County Sheriff Frank Park said to his knowledge no money is missing from the department’s evidence room.

**Last week’s rain didn’t boost water outlook**

*Although Tooele County was pounded with rain last week, it wasn’t enough to decrease local water officials’ worries about the upcoming summer and drought that may follow. Gary Bean, president of Settlement Canyon Irrigation Company, said as of Monday morning, Settlement Canyon Reservoir was at a height of 43 feet, 6 inches, which is about 17 feet below the spillway. That’s not looking good at all,” he said. “That’s way down from where we should be. It’s just going to be another drought year.”*

Lynn Taylor, watermaster for Greenville Irrigation Company, said things are looking grim at Greenville Reservoir, too. “We are still way under where we should be,” he said. “Pretty soon the snowpack will all be gone and the reservoir will start coming down, but we will deal with it the best we can.”

Monica Traphagen, forecaster for the National Weather Service office in Salt Lake City, said the overall precipitation total for May in Tooele County has not been calculated yet, but the May total for Wasatch Park was 1.48 inches. She said this amount should be similar to the rest of Tooele Valley.

**Judge hears arguments in Overlake lawsuit that has lasted four years**

*The long-standing, multimillion-dollar dispute between Tooele City and a developer is now in the hands of a judge.*

**STAFF WRITER**

By Tim Gulley

Tooele Associates, developer of Overlake, had one last chance last week to plead their case to a judge. Tooele City and a developer is now in the hands of a judge.

Tooele Associates, developer of Overlake, had one last chance last week to plead their case to a judge Randall Manthey. He will issue a final judgment in the four-year-old lawsuit that ended with a jury verdict against Tooele City. That verdict included the city owing $20.7 million to the developer. Tooele City attorneys argued Thursday for a reduction in the damages awarded by the jury or a new trial, while Tooele Associates’ attorney argued for the jury verdict to be upheld and interest added to the damages.

“Today is one of those cases where the jury verdict is a matter of law to support the jury verdict,” said George Hiley, of Holland & Hart, representing Tooele City. Since 2007, Tooele Associates’ attorney, maintained the jury award was carefully calculated by the jury after hearing expert testimony.

It is impossible for the city to say the amount of damages was a surprise,” he said.

Hiley argued that the damages awarded by the jury to Tooele Associates were uncertain with that sums that require damages to be based on a judgment or by lost profits. Lost profits are defined in black color as present on future revenues less gross costs that would have been expended. Tooele Associates did not present to the jury any proof of costs, according to Hiley.

Hiley also argued that a partial ruling by the judge trimmed damages to $6.7 million and that Tooele Associates made internal mistakes in determining.

**Governor to visit TATC ribbon cutting**

*A ribbon cutting ceremony and open house will be held Wednesday at Tooele County’s newest education facility.*

By Tim Gulley

A ribbon cutting ceremony and open house will be held Wednesday at Tooele County’s newest education facility. On June 3, Gov. Gary Herbert will speak at the 11 a.m. ribbon cutting ceremony for the Tooele Applied Technology College. The ribbon cutting will be followed by an open house from noon until 6 p.m.

Guided tours, or self-directed wandering through the 74,600-square-foot, $13.5 million building, will allow Tooele residents to see several floors for the Tooele county community, according to Scott Stelton, UCCS campus president.

“The building is beautiful,” he said. “And the building itself is a

US consumers cut spending in April with lack of income

by Christopher S. Rugaber

WASHINGTON (AP) — American cut back on spending in April, driven by a general lack of confidence among consumers. That slowdown may have been enough to knock down growth in gross domestic product by a full percentage point.

Consumer spending dropped 0.3 percent in April, the Commerce Department said Friday. That was the first decline since last year. It followed a 0.1 percent increase in March and a 0.2 percent increase in February.

The weak sales, which are the biggest part of the economy, come at a time of overall economic weakness, with a few new signs of growth. US consumers cut back on spending in April, which may have been enough to knock down growth in gross domestic product by a full percentage point.

TOOELE TRANSCRIPT BULLETIN

SNOWPACK DIMINISHED

WASHINGTON (AP) — President Barack Obama on Monday called for a more robust national discussion on mental illness, saying the time had come to bring the issue "out of the shadows." Speaking at the opening ses-

sion of a White House conference on mental health, the president said his goal was to see people with mental illness who should not suffer in silence.

"Struggling with a mental ill-

ness can be isolating," Obama said. "It begins to feel as if, not only are you alone, but that you shouldn't burden others with the challenge."

The conference is part of Obama's response to last year's shooting massacre at a Connecticut elementary school. While the president emphasized that most people with mental health problems are not violent, he said untreated mental illness can lead to larger tragedies.

"It's been little public-

ly revealed about the mental health of Sandy Hook shooter Adam Lanza, although it's been documented that other gun-

men involved in mass shootings suffered from mental illness. That's why it's important for us to do more to help people with mental illness and to help those who are struggling to get help."

Vice President Joe Biden, the

president's point man on gun

violence, is scheduled to close it

down today.

The agenda includes discus-

sions of insurance coverage for mental health care and substance abuse, recognizing the signs of mental illness in young people and improved access to services for veterans. The mental goal is reaching the stigma of mental illness and the confusion of those who are struggling to get help.

Among 23 executive orders that killed 26 was a directive that Health and Human Services Secretary Kathleen Sebelius and Education Secretary Arne Duncan launch a national dia-

logue on mental health.

The conference is part of that, with Sebelius hosting the panel on addressing negative attitudes and Duncan moderating a ses-

sion on mental health outreach efforts.

In announcing the conference, the White House stressed that for many, mental health conditions are not violent and are more likely to be victims than perpetrators of crimes. But the need to improve the country's mental health care system is something all sides of the gun debate have advocat-

ed, including the National Rifle Association.

"That is something substantive that Congress and the president could do right now that would actually help prevent future trag-

dies, unlike the gun control pro-

posals that the president unsuccess-

fully tried to push through Congress," said gun rights spokesman Andrew Sodini.

Obama announced that the Department of Veterans Affairs will conduct mental health seminars nationwide to increase awareness of VA programs and link veterans and their families to services that could support their needs. The confere-

ees also plan to test improve-

ments in mental health coverage under Obama's health care law, including a ban beginning next year against denying coverage to those who are mentally ill.

The White House also plans to focus on commitments being made in the private sector to increase understanding and awareness, including a campaign by the National Association of Broadcasters through television and radio ads and social media.

Several organizations that work with young people also are plan-

ning to make new commitments, including high school principals building mental health assis-

tancess, to USA Today's Future for Mental Health...
The job doesn’t sound very appealing, or for that matter, even very comfortable. I suspect that’s exactly where the problem lies. This job is neither sexy nor comfortable, and it is a job that requires a great deal of hard work and discipline. It is a job that requires a great deal of discipline and hard work.

The problem is that this is a job that requires a great deal of discipline and hard work. It is a job that requires a great deal of discipline and hard work, and it is a job that requires a great deal of discipline and hard work.

The problem is that this is a job that requires a great deal of discipline and hard work. It is a job that requires a great deal of discipline and hard work, and it is a job that requires a great deal of discipline and hard work.

The problem is that this is a job that requires a great deal of discipline and hard work. It is a job that requires a great deal of discipline and hard work, and it is a job that requires a great deal of discipline and hard work.

Bevan said the snowpack in Settlement Canyon is now nonexistent — the Rocky Basin measuring station is now at 0 percent. A month ago, it was at 97 percent of normal.

"Right now people better plan on a pretty lean water year," he said. "A year ago it was a bad year, and we had 51 feet in the reservoir. This year it's down to 43 feet. We've got good runoff [coming from Settlement Canyon Creek] but it's not getting to the reservoir without a pipeline."

Bevan said another source of runoff, Rocky Ridge Spring, typically starts flowing into the reservoir around Memorial Day, but this year, he hasn't seen anything. "We're hoping for the Rocky Ridge Spring to come in, because historically it comes in around Memorial Day," he said. "This year, there's not a drop coming in from it."

"We're hoping for the Rocky Ridge Spring to come in, because historically it comes in around Memorial Day," he said. "This year, there's not a drop coming in from it."

Taylor said most people also don't realize that the reservoir needs to refill up three times to serve Grantsville throughout the entire water season.

"Just because the reservoir is 6 or 7 feet from being full doesn't mean anything," he said. "The reservoir holds 3,400 acre feet, but it takes 10,000 acre feet to take care of our whole system."

Taylor said all county residents can hope for now is a lot of rain and be prepared to battle more drought conditions.

"I hope that we get a lot of rain, but we've got to deal with what we've got," he said. "Last week's storms helped a lot, but throughout the whole month of May, we only got about one and a half inches of precipitation. We'll just have to see what the rest of the summer does."

Drew Hall, managing partner of Tooele Associates, touted the walkable mixed-use community. In 2002, Hall filed several lawsuits in 3rd District Court against Tooele City, claiming it violated the development agreement. In 2007, Hall filed several lawsuits in 3rd District Court against Tooele City, claiming it had violated the development agreement for Overlake. Tooele City filed a counterclaim in 2009 against Tooele Associates claiming that Tooele Associates had violated the development agreement.

Hall’s claims included accusations that Tooele City violated the development agreement by denying permits, withholding approval of improvements, and enforcing codes and ordinances at the subdivision that were not applied to other developers.

The jury was to hear the case in 3rd District Court in June 2009. The jury found Tooele City guilty of breaching agreements with Tooele Associates and awarded the developer $22.5 million in damages, that amount was reduced to $20.7 million because Tooele Associates was ordered to pay the city $1.6 million for its own failure to honor agreements.

A year later, in June 2010, Judge Skanchy, who presided over the trial, declared a mistrial and ordered the case to be retried. The jury was to hear the case in 3rd District Court in June 2009. A year later, in June 2010, Judge Skanchy, who presided over the trial, declared a mistrial and ordered the case to be retried. The jury was to hear the case in 3rd District Court in June 2009. The jury found Tooele City guilty of breaching agreements with Tooele Associates and awarded the developer $22.5 million in damages, that amount was reduced to $20.7 million because Tooele Associates was ordered to pay the city $1.6 million for its own failure to honor agreements.

Free shooting across Utah. Most of the fish will be bluegill, catfish, white bass and smallmouth and largemouth bass. All Bass and catfish in excess of 15 inches will be tagged with a large $50 Bass Tag. Improv box office. The Bees will play the Rock Canyon Bears on Tuesday, May 28 at 7 p.m. at the 2-1A Region Tournament. On Friday, June 1, at 7 p.m., they will play through the week and then advance to the regional tournament on June 7 in Magna. Total of $13,000 will be available to teachers for their individual classrooms. In-person registration will be held at the Spring Mobile Ballpark box office. The Bees will play the Northridge Eagles on June 20 at 7 p.m. at the 2-1A Region Tournament. On Monday, June 24, at 7 p.m., they will play the team that wins the regional tournament.

Teacher Appreciation Night
The Tooele High School girls' basketball team will host its annual Teacher Appreciation Night on Thursday, June 13 at 7 p.m. The game is free for all teachers. The game will begin at 7 p.m. at the Spring Mobile Ballpark. Grades 9-12 will be $4, ages 5-8 will be $2, and those age 4 and under will be free.

BASKETBALL CAMP
The Stansbury High School girls' basketball program is sponsoring a Summer Basketball Camp for grades K-8 will be from 10:30 a.m. to 1:30 p.m. on June 17, 18 and 19. The camp will be hands-on and individualized instruction will be given. The camp will be held at Stansbury High School and will be $50 per camp. Participants will all receive a Stansbury T-shirt, and campers will also be given an opportunity to join the basketball team if interested. For further information, please contact Kris Ashby at 801-791-3700 or sheath@tooeleschools.org. Email your child’s name and shirt size for the camp to kashby@tooeleschools.org.

Champions fight back with 10 straight victories after losing first game

Brittany Smith. “We were in a complex. Right now, it’s all Superman all the time. I was pleased to see that Real Salt Lake scored some goals while giving medical attention to a supporter who needed it. The game was great for them and the other team’s fans. The support from the fans is what makes games exciting.”

“After about five or six games in the tournament there were eight teams. Last year there were 10 teams. This year there were 12 teams. Last year there were 16 teams. This year there were 18 teams.”

“By the end of the day we were exhausted. It took all of Sunday just to recover.”

Trevor Stallworth

“By the end of the day we were exhausted. It took all of Sunday just to recover.”

Trevor Stallworth

“All the pressure and excitement of the last game will be on the team that wins the tournament. It was a great tournament for all the teams.”

“We won our first four games, but then lost the next two. By the end of the day we were exhausted. It took all of Sunday just to recover.”

“Winning the softball tournament in honor of Byrd this year was a major accomplishment considering 20 losses this year. Byrd was killed in Afghanistan in October 2010 while giving medical attention to another soldier that ultimately saved his life. Proceeds from Saturday’s big tournament will be used toward scholarships for students studying medicine. Byrd, who graduated from Dugway High School in 2005, planned on going to medical school. He took it all of Sunday just to recover.”

“Because the scholarships are for studying medicine, we have had several doctors donated,” Stennis said. “Troy Johnson worked on the fields to get them ready for the long day or work on Sundays. The tournament started at 4 p.m., with the final game of the school day at 9 p.m. “We didn’t charge a fee to use the fields, but he gets any money made from the concessions,” Stennis said. “Coach a team in Salt Lake City called the Bar-"n"o-Lee. We were able to drive the past little while and I watched RSL score some goals while giving medical attention to a supporter who needed it.”

“I love seeing my family. Going to games is one of the best things I do.”

“I was pleased to see that Real Salt Lake updated something with its stadium atmosphere to keep the fans excited since the last time I attended a game, which was the summer of 2011. Now there is a Real Salt Lake app. We can use it to order tickets, check up on our team, and see the current stats. The app is a great tool for following the basketball playing sports games.”

“I’m enjoying the game of the other teams. I’m enjoying the game of the other teams. I’m enjoying the game of the other teams.”

“I wrote a “From the Sidelines” column during the college basketball season. It is a great column and I had really good recollections of that sport during the year. Now I realize that it’s all basketball.”

“Love what you want to love.”

Heat blast Pacers to advance to NBA Finals

By Tim dismal
ASSOCIATED PRESS

MIAMI — Their season, their legacy, their reign atop the NBA was all at stake, and the Miami Heat responded in a manner befitting defending champions — with a blowout.

LeBron James scored 12 points and grabbed eight rebounds, all in the first half, and the Heat ran away from the Indiana Pacers 97-71 in Game 6 of the Eastern Conference finals on Monday night.

The Heat had done it before. They were doing it again. They were a step closer to a third straight trip to the NBA Finals.

That’s not happening too often. We’re getting closer. A second straight year, the Heat will play in the NBA Finals.

It could have ended on Monday night. The Heat scored 56-9 in the first quarter and it was start- ing to look like one of those rare cases where the games aren’t even close to being over.

Not even close.

You never want to take anything for granted,” Wade said.

Miami went 2-0 against San Antonio in Game 1 and Games 3 on Thursday in Miami.

The Heat are the biggest thing in the basketball world right now, and they’re getting closer. A second straight year, the Heat will play in the NBA Finals.

The cost for pre-school and kinder- garten students is $55. N-Motion is located inside Penobscot Sports at the Utah Industrial Depot, 10 S. Garnet St. building 36, suite 18.

N-Motion is a member of USA Gymnastics, which has many programs, including the Olympic sport, the double- bounce and trampoline. N-Motion also has a full-sized trampoline, which is used for practice and helping the students build confidence before moving the skills over to power tumbling.

“With the pre-school ages we’re looking at coordination and basic motor skills,” Rose said.

“They’re going to give us an incredible season on the floor, a long way from now.”

They had ended on Monday, of course. The Heat had alternated wins and losses with the Pacers in the first six games of the series, and were coming off their worst offensive outing of the year in Game 5.

“By any means necessary,” Rose said, “we took care of business.”

James scored 20 of his 25 in the first half, including seven points on 2-for-9 shooting and 10 from Lance Stephenson. David West, 13 from George Hill for the Pacers, who got 14 from

Perception of Popovich changes

The basketball coach who led the Spurs to three championships in the quarter-final must see TV - Gregg Popovich didn't disappoint.

As asked by ESPN's reporter who went wrong for the San Antonio Spurs ultimately early in Game 3 of the Western Conference Finals, Popovich responded, "It's nothing."

Asked a follow-up, it's a silly point, it's going to be a win, possibly, or maybe just part of our team that the man appears to have changed.

"I don't think Pop has changed, other than the fact that he enjoys his wine a little bit more now," former Spur Bruce Bowen said.

Bowen, a member of the Spurs' 2007 title team, said Pop always enjoyed wine but his enjoyment has increased in recent years, which has led to changes in the way he talks about them.

Bowen would give him his first head coaching job at the University of Pitzer in Claremont, Calif., where Popovich studied. His first head coaching job was at Division II Pomona-Pitzer in Claremont, Calif., where he was known for his good dinner and bottle of wine.

"I think he's always been a very good dinner and bottle of wine. He just might not let them know he's having a good dinner and bottle of wine," Bowen said.

"I think he's changed, other than the fact that he enjoys his wine a little bit more now," former Spur Bruce Bowen said.

"But as Popovich reads into his 60th NBA Finals as San Antonio's coach, his first since 2007, something different. The franchise that never won depends on a storyline that's not falling, and people have a more appropriate view of his architecture.

"Long respected for his basketball brilliance, Popovich has won over — or just outdone — all those who didn't like his existence.

"I think he's always been a very good dinner and bottle of wine. He just might not let them know he's having a good dinner and bottle of wine," Bowen said.
For most residents of Tooele County, the word pioneer invokes images of long-ago ancestors who arrived in Utah by wagon or handcart from the eastern United States or countries in Europe. These pioneers came to carve out a home in the desert, seeking religious freedom and the opportunity to pursue their dreams.

The word pioneer does not usually conjure modern images of airplanes, computers and the 21st century, but for the Seekins family of Grantsville, the term modern-day pioneers is an apt description of their adventures during the past 16 years.

Paul and Catherine Seekins were both born and raised in Yorkshire, England. Paul was raised in the small town of Halifax, and Catherine in Harrogate.

They met at a church dance as teenagers, and the Seekins family of Grantsville, the term modern-day pioneers is an apt description of their adventures during the past 16 years.

Paul Seekins (above) plays the bagpipe in his backyard in Grantsville. Not long after immigrating to the U.S., Seekins and the late Lance Sutherland co-founded a local bagpipe band called the Tooele Valley Highlanders. Seekins now regularly plays for the Utah Pipe Band, which performs in parades and other community events. The Seekins family (left to right, front row) display their national flags: The British Union Jack (center) consists of Britain, Ireland and Scotland, and Paul (front row, right) is holding the Rampart Lion, the original flag of Scotland. Catherine (center) is holding the “St. Andrew’s” flag for the United Kingdom, which consists of Britain, Ireland and Scotland, and Benjamin (far left), Liam (center) and Paige (far right) are holding the “Rampart Lion,” the original flag of Scotland.

Simple crock pot cooking techniques make meals easy

When cooking meat with vegetables, put the vegetables, cut in bite size pieces, on the bottom so they will cook evenly.

For the other ingredients and just cooking meat in a crock pot, bring them along. For more meat, bring the hours for 10 minutes. Then drain and add to the cooker. If the recipe calls for sac or agile ingredients, cook beans completely before adding them to the selected dish.

Once upon a time, there lived a rich couple, and each month the woman asked the moon, “Is it the most beautiful in the world, or am I right?”

Each time the moon replied, “You are most beautiful.”

The woman grew sick in body, and they named her Nourie Hadig. She grew more beautiful with each passing year, and one night when she was 15, her mother asked the moon who was most beautiful. The moon replied, “Nourie Hadig is more beautiful than you or I.”

And Nourie Hadig waited, but after many days when he did not appear, she began to search for him.

In the city the prince bought a ring and a bridal dress, and he agreed to sell the stone to the prince. Naturally, the prince agreed.

One day, a healer came, and as he tended to the prince, the prince understood Nourie Hadig.

And the mother, shocked at this news, died that very day.

The woman gave birth to a baby girl, and they named her princess Nourie Hadig, Princess of Adana.

The man was sick with grief, but he felt he must return home. When Nourie Hadig named her mother’s favorited heir, she ran to her father. When he asked his wife what was wrong, she said, “Tell me, who is more important, your daughter or me?”

“My father left me,” Nourie Hadig said, and the voice said, “Nourie Hadig, Princess of Adana.”

Nourie and the Gypsy girl took care of the prince all four years she took care of the prince. Naturally, the prince agreed.

One day her husband Nourie Hadig cried out the window to a group of Gypsies, “Will anyone help me tend to a sleeping prince?” She dropped a rope, and one young girl agreed to climb the rope and help. Nourie and the Gypsy girl lived happily ever after.

Pioneers

Funeral services for Paul and Catherine Seekins are set for Saturday at 11 a.m. at the Grantsville Fire Department. They were married in that community 16 years ago and brought up their family there. Although they had grown up in Maine and lived in England, the two felt Grantsville was the perfect place for their family.

The Seekins family lived in Tooele, and as the couple spent weeks of their life in Utah living in Grantsville, and as Paul played the bagpipes at his funeral, they began to feel they had made the right decision.

The family has an urge to return to their college town, as they consider the Seekins family has an urge to return to their college town, as they consider the

The Seekins children, Paige, Benjamin and Carsen, are actively involved in sports. Being involved in the community has been part of their family culture.
