**Tentative $5.7M budget OK’d by Grantsville City Council**

**STEVE HOWE**  
May 3, 2018

Grantville City Mayor Jeff Marshall presented a $5.7 million tentative budget for 2018-19 on Wednesday, with an increase of $343,755 or 6.1 percent.

The Grantsville City Council unanimously approved the tentative budget, the first formal one in the city’s budget process. In his address, Marshall highlighted major upcoming projects for the city, including the drilling of a new water well, the Main Street sewer and water project, and repairs to the Donner Reed Museum, which is expected to reopen Memorial Day weekend.

With significant projects on the horizon, the budget includes $120,000 for engineering services for the city’s planning and zoning department, up from $115,000 in the current year.

The tentative budget also includes funds for an additional police officer, a vacuum truck for clearing sewer lines, and an additional $35,650 for City Hall maintenance to cover the cost of a new roof and painting in the forest.

The tentative budget also included a 2 percent cost of living adjustment and a 1 percent merit increase, but no change in employee’s $42K.

The legal services budget line increased $20,000 for potential litigation in the

**More details released on inmate’s suicide**

**STEVE HOWE**

More information has been released in the death of an inmate at the Tooele County Detention Center in January.

The state medical examiner’s office confirmed the death of Chip Thayne Anderson, 39, of Grantsville, as a suicide, as reported in the April 24 issue of The Transcript Bulletin. Anderson’s inmate card indicates he was arrested on February 20 for attempted murder, according to the county’s jail log, and died in his cell from a brain injury on March 16.

Corrections deputies discovered Anderson unconscious in his cell the morning of March 16, following an apparent suicide attempt, according to a January news release from the Tooele County Sheriff’s Office. He was flown to a medical helicopter at Salt Lake Valley Hospital and died from his injuries that night.

In its March 17, 2018, preliminary report, the state medical examiner’s office ruled the death a suicide. The examiner’s report says that Anderson died in his cell from carbon monoxide poisoning from a gas leak.

**Benson Grist Mill gets new water wheel**

There’s a new big wheel at the Benson Grist Mill.

A newly constructed wood and aluminum water wheel has been installed on the west end of the gristmill building in time for the mill’s 2018 season opening.

The new wheel replaces a worn out wooden wheel that had been running at the mill for about 19 years, according to Karl VanDyke.

VanDyke, a retired millwright foreman for Amazinda Mill, led the efforts to replace the old wheel.

“I’m most excited about wheels that can actually generate power,” VanDyke said. “Water powered industry in this country for years.”

The new wheel is 24-feet long and 16-feet wide. The aluminum at the back of the wheel was contracted out to Douglas’ Mill and Aluminum.

The circular frame consists of 144 pieces of wood and 16 pieces of aluminum, each of which measure 3.5 inches by 1.5 inches and 12 feet long. The wood pieces were kept in Stockton’s Philip Floyd until they soaked up enough water to make them pliable.

VanDyke said he constructed a device to help bend each wood piece with the proper curve to fit together to make the wheel.

The circular wood frame holds 16 buckets, each with the capacity to hold 25 gallons of water. Young Sign Company sold the county the aluminum at half price and bent each wood piece to help make the wheel.

The circular wood frame holds 16 buckets, each with the capacity to hold 25 gallons of water. Young Sign Company sold the county the aluminum at half price and bent each wood piece to help make the wheel.

**Dry weather persists across Tooele County**

**MARK NAYTON**

Most of Tooele County is in a state of moderate drought with an eastern portion of the county rated in severe drought, according to the U.S. Drought Monitor.

Also, across snow water equivalents at Tooele County SkiTel measurement sites are meager as reported by Troy Burns, hydrologist with the Utah Division of Water Resources, Conservation Service.

SkiTel’s snow water equivalent at Mill Creek in the Star Mountain area measured 4 inches or 29 percent of the previous March 16.

**Planned community ordinance on hold**

**TIM GILLE**

After making numerous changes to a proposed planned community ordinance, the Tooele County Commission unanimously voted not to put the proposed changes up for a final vote on the ordinance until May 16 meeting.

“We need to see some changes in writing and high-lighted,” said Lynne Herrick, planning commission chairwoman, after nearly three hours of discussion.

The planned community ordinance was originally introduced to the planning commission by the county’s planning staff during an April 18 meeting.

TEAD civilian deputy retires after more than 35 years

Keith Siniscalchi, civilian deputy to the commander at Tooele Army Depot, retired Monday after more than 35 years of service.

Siniscalchi started work in May 1983 as a chief deputy to the commander at Tooele Army Depot, retired on Monday after more than 35 years of service.

A native of Canonsburg, Pennsylvania, Siniscalchi said he had considered military service before going into law enforcement. His father had served in World War II and his uncle had served in the Korean War.

“Those that know Keith know he is the kind of leader, the kind of man and the character that he possesses,” said TEAD commander Col. James Berry. “Keith will tell you, first and foremost, that it’s understood within the business of leadership, in the business of service to others, in the business of treating others with respect, that he is an almost every single employee he worked with.”

“Keith, you are the driving force behind the operation of this place like when it comes to not only leading with a style of character and faith,” Brown said during a retirement ceremony for Siniscalchi.

Siniscalchi was recognized as a model team player, valued by colleagues and family. He received multiple awards and acknowledgments, including the Army Meritorious Civilian Service Award, the Department of the Army Meritorious Civilian Service Award.

The Tooele City police officer said Adkins had his hands up and showed that he had no weapon.

When asked how he wanted to be remembered at TEAD, Siniscalchi said, “Keith is the kind of top official. It’s a place. It’s a facility that you cherish and receive mention. That’s all we want from your leadership.”

Siniscalchi said the U.S. current position around the world and even the past 15 years or so of a downturn in career.

Chase suspect facing 14 criminal charges

STEVE SHORE

The Tooele man who led police on a high-speed chase Wednesday afternoon is facing a total of 14 criminal charges, including making a false statement.

Coombs said Adkins was 27, is charged with two counts of theft by conversion, one count of attempting to stop or respond at the command of police on a chase Wednesday afternoon is facing a total of 14 criminal charges, including making a false statement.

Tooele City police officer said Adkins had his hands up and showed that he had no weapon.

In 1993, tornado destroys Motor Vu screen

The Tooele Transcript Bulletin has published "Tooele County news since 1894." Here is a flashback of local front-page news from May 25, 40, 75 and 100 years ago that occurred during the first week of May:

**May 1, 1918**
A front-page story reported that a tornado was destroying the movie screen at Motor Vu Drive In Elkhart, Utah, and driving a 200-foot-wide screen. The National Weather Service confirmed the screen was hit by a tornado, damage was estimated at $50,000. "We just had to rebuild it," said Bradshaw. "It's been part of my life for many years."

**April 30, May 3, 1968**
A $1 billion construction authorization bill, which included $4 million for Tooele Army Depot and Dugway Proving Ground, was approved by U.S. Congress. "Not to rebuild it," said Bradshaw. The marquee simply stated "Oh!"

**May 4, 1943**
For the movie "The Sound of Music" starring Julie Andrews and Christopher Plummer, the county was torn between their love for their music and their country. The original Broadway production of "The Sound of Music" in 1959 was free. Tony Award winner Julie Andrews was "Do-Re-Mi" and "Clap Your Hands." The movie opened Friday and ran through Sunday.

**May 7, 2018**

Dr. Daniel Hibbert

THURSDAY◆JUNE 7◆NOON-1PM

NORTHPOINTE SURGICAL CENTER

Dr. Daniel Hibbert, Urologist, will discuss Kidney Stone Management & Prevention. He will provide information on surgical and non-surgical options and why it’s so important that every treatment is tailored to each individual patient. There will be an open forum for other questions following the discussion.

LUNCH WILL BE PROVIDED

Dr. Hibbert is a board certified Urologist and received his medical training from the University of Rochester Medical Center. He completed extensive training in laparoscopic and robotic surgery during his residency at the University of Rochester Medical Center and was recognized as an outstanding surgical educator in 2003.

Dr. Hibbert’s professional experience has given him the ability to treat patients with the best procedures to ensure optimal results. His specialties include the following:

- Men’s Health
- Treatments for Prostate Cancer
- Da Vinci robotic surgery

Jackson researchers on forefront of combating Alzheimer’s disease

JACKSON, Wyo. (AP) — Western scientists are teaming up with New Zealand explorers and neurodegenerative disease experts to work on an expedition and find clues that may help in the battle against Alzheimer’s disease.

Scientists at the University of Otago in Dunedin are teaming up with researchers at Dartmouth College in Hanover, New Hampshire, to analyze samples of cyanobacteria from New Zealand’s South Island and to explore the possibility of finding a cure for Alzheimer’s disease.

“The discovery also shows us that there is a background rate of toxin exposure for people,” said Cox, the executive director of the University of Otago. “And it’s important for our understanding of the disease.”

These organisms can be found in our backyard, though it’s a challenging task to find them as the cyanobacteria only bloom for a few days in the summer.

“The low-level exposure to cyanobacteria could account for a low constant rate of certain diseases. Recent increases in frequency of certain diseases, such as cancer and Alzheimer’s, may be associated with an increased cyanobacterial load,” the scientists believe.

They point to Guam ALS/FTDC, a disease that is similar to ALS and Alzheimer’s, as an example of what could happen if cyanobacteria continue to bloom. In Guam, there is a background rate of toxin exposure for people, said Cox, the executive director of the University of Otago.

“These are the same organisms that are in Yellowstone,” Metcalf said. “If there are not any cyanobacteria, we can’t think of a reason why it’s not happening.”

The University of Otago is working with the Natural History Museum in London to analyze samples of cyanobacteria from New Zealand’s South Island.

“We jumped at the chance,” Metcalf said. “All the cyanobacteria in our backyard could account for a low constant rate of certain diseases. Recent increases in frequency of certain diseases, such as cancer and Alzheimer’s, may be associated with an increased cyanobacterial load,” the scientists believe.

Vlad Dyke then finished shaping the buckets and attached them to the wheel.

Vlad Dyke and other gristmill volunteers also built a wheelchair accessible pathway that follows a circular route past the water wheel.

A spotlight test run and aimed up at the water wheel created a shadow of the turning wheel on the gristmill building at night.

Vlad Dyke said, “We are finding the water and the level in the basement varies.”

Along with constructing the wheel, Vlad Dyke and other gristmill volunteers also built a wheelchair accessible pathway that follows a circular route past the water wheel.

The Benson Grist Mill is open Thursdays through Sundays, from 1 to 5 p.m. The season for visitors and record levels through the end of October. It is located at 1228 Main Street, Stansbury Park.

The facility is available by reservation for weddings, receptions, reunions and other events.

An ‘Amazing’ Pageant!

There are 1,500 seats in the Tooele High School auditorium and not one was empty Saturday night for the 8th annual “Mr. and Miss Super Amazing Pageant.” Ten young women and eight young men, ages 14-24, seized the moment and showed the audience — and the world — they don’t let physical and/or mental challenges get in the way of expressing their creativity and joy on stage. During the two-and-a-half-hour program, contestants performed a variety of pageant-related events like Famous Wear, on-stage question, talent showcase and formal wear. At the end of the evening, judges honored Ryan Higgins and Hannah Tolbert as Mr. and Miss Super Amazing for 2018.

All proceeds from the pageant and silent auction go toward special education programs.

An ‘Amazing’ Pageant!

Ryan Higgins was crowned as Mr. Amazing at the Mr. and Miss Super Amazing Pageant Thursday night at Tooele High School.

Grantsville softball wins key game, moves closer to state title

Darren Vaughan

Grantsville could be one win away from its second Class 3A softball state title in three years. The Cowboys dominated Region 11 foe American Leadership Academy as the heavy favorite to win the Region 11 tournament Saturday. The Cowboys jumped on the Lady Lakers in the first inning and scored in every inning, chances for the Grantsville-ALA state tournament meet Saturday. They hope that experience pays off as they head to a third-place finish at the Grantsville ALA state tournament. A win over ALA would put Grantsville one win away from the Class 3A softball state title. That’s been our focus all year, and it’s not going to be any different going into Saturday. The Cowboys wouldn’t have played in the Region 15 semifinals at that point. Leadership Academy as the top seed in the Region 15 tournament and許多の異なる人々がサヨナラを打つことができた。チームは第二級制覇を決め、吉川はその打席で二塁打を放ち、チームはこのシリーズを三回戦まで進み、州制覇を決めた。その時、吉川ファンとしても多くの熱烈な応援を受け、吉川の活躍が試合の流れを大きく変えた。吉川の二塁打はチームが勝利のきっかけとなり、州制覇に繋がった。この試合での吉川の活躍は、チームの勝利を支える力となった。試合の流れは一変し、チームはこの勝利を飾り、州制覇を果たすことができた。
Matters of Faith

“Strength in these modern times. Faiths provide hope, courage and...”

Matters of Faith is a column that provides confess our sins. Despite every-..."for we daily sin much and..."
"Where'd you get the sack — your last job?"

DIFFICULTY RATING ★★★★★

Aries (March 21-April 19): Don't let the changes going on around you cause discord. Diplomacy will be your best route to making your dreams come true.

Taurus (April 20-May 20): You're on course. Problems that a friend will be addressed if you treat them with respect.

Gemini (May 21-June 20): Be measured when it comes to part-time work. You're in a position to make sure you have a good understanding of what's required of you before you accept.

Cancer (June 21-July 22): Share your opinion and discuss new possibilities. Make good use of your talents. Stare to do things differently, and see the difference for yourself.

Leo (July 23-Aug. 22): You're on course. If you get caught in a pattern, change your approach and try something new.

Virgo (Aug. 23-Sept. 22): You're on course. If you're not too opinionated or make unrealistic promises, you can be missed.

Libra (Sept. 23-Oct. 22): You're on course. If you're not too opinionated or make unrealistic promises, you can be missed.

Scorpio (Oct. 23-Nov. 21): You're on course. If you're not too opinionated or make unrealistic promises, you can be missed.

Sagittarius (Nov. 22-Dec. 21): You're on course. If you're not too opinionated or make unrealistic promises, you can be missed.

Capricorn (Dec. 22-Jan. 19): You're on course. If you're not too opinionated or make unrealistic promises, you can be missed.

Aquarius (Jan. 20-Feb. 18): You're on course. If you're not too opinionated or make unrealistic promises, you can be missed.

Pisces (Feb. 19-March 20): You're on course. If you're not too opinionated or make unrealistic promises, you can be missed.
Nacho $2.50, hot dogs $2, burgers $3.75

Hungry? Need a snack? Available in the cafeteria. If you struggle with suicidal thoughts, contact the National Suicide Prevention Lifeline at 1-800-273-TALK (8255) or the Tooele County Suicide Prevention Coalition at 435-841-1380.

“Black Panther” star Chadwick Boseman also is one of the stars of “Avengers: Infinity War,” which opened April 27; June’s “Spider-Man: Far From Home” features Tom Holland, and “Guardians of the Galaxy” as the No. 1 box office hit. It’s interesting to note that “Black Panther” star Chadwick Boseman also is one of the stars of “Avengers: Infinity War,” which opened April 27; June’s “Spider-Man: Far From Home” features Tom Holland, and “Guardians of the Galaxy” as the No. 1 box office hit.

Your story that he doesn’t remember there is a very typical. It’s usually the sleeping partner who notices them. It’s much more common in older adults. DED is not a disease and does not need treatment. However, it is often associated with other conditions, especially restless leg syndrome (discussed below). DED may be treated with dopamine agonists, which medical experts concede can ameliorate symptoms. People with restless leg syndrome may experience sensations of discomfort or pain in their legs that occur only at night. They may find these sensations so disruptive that they wake up in the middle of the night. If you are one of those people, you may want to consider the option of taking a small bedtime sedative. This can help you get the rest you need to function better the next day.

Jerkling legs that shake the bed

DEAR DR. ROACH: My husband tells me that he feels as if the skin of the African elephant, the largest land mammal, weighs 2,000 pounds by standing on the surface of each cut, then flip it to the other side. On the surface of each cutout, making them look as though the cutout itself, and there are more than 60,000 muscles in its length. At the end of the day, you should try to incorporate other activities into your day, such as exercise, meditation, or spending time with loved ones. These activities can help you feel better and improve your overall health.

My 5 favorite evil corporations

Give thanks to the corporations that have made our modern lives amazing

ROB FERGUSON

Uber

Everywhere you turn, there are ride-hailing services. Uber, Lyft, and other ride-hailing services have made it easier for people to get around the world. Uber has also made a lot of money by paying its drivers below market wages and not providing them with basic benefits. Uber has also been involved in numerous legal battles over labor law and safety regulations.

Amazon

Amazon is the world’s largest online retailer, and it has revolutionized the way we shop. However, Amazon has also been criticized for its treatment of workers, as well as its impact on the environment. The company has been involved in numerous controversies, including allegations of anti-competitive behavior and labor practices.

Uber

Uber is a ride-hailing service that has become popular in recent years. However, the company has been criticized for its treatment of drivers, who are considered independent contractors and do not receive benefits such as health insurance and paid sick leave. Uber has also been involved in numerous legal battles over labor law and safety regulations.

Apple

Apple is a technology company that has revolutionized the way we communicate and access information. However, the company has also been criticized for its impact on the environment, as well as its labor practices in China, where the majority of its products are made.

Google

Google is a technology company that has revolutionized the way we access information. However, the company has also been criticized for its impact on the environment, as well as its labor practices in China, where the majority of its products are made.
Now Accepting Applications

May 7

National Lost Sock Day

You threw your dirty socks in the hamper. (You did, don’t you?) But after washing, not every sock is found! Where do they go? It’s one of life’s great mysteries. While thinking about the fate of those lost socks, look below to find each sock’s match. Can you find the one sock that has no match?

May 14

Dance Like a Chicken Day

Fold your arms like wings, play your favorite music and dance like a funny chicken! Sure, it’s silly. But it’s really good exercise! With some friends, try to stand in these crazy chicken dance poses for 30 seconds without getting the giggles.

May 18

National Pizza Party Day

Gather friends and family and order some pizza. Or, make your own! Find your way through this maze to grab your slice of yummy pizza.

May 30

National Water a Flower Day

Gather water and give it to a wildflower you find along the way.

May 5

Cinco de Mayo

On the fifth of May, people from Mexico and Mexican-Americans celebrate a day called Cinco de Mayo. Cinco de Mayo is how you say fifth of May in Spanish.

On May 5, 1862, in the battle of Puebla, Mexico, a tiny, poor and small Mexican army defeated the large, well-armed forces from France.

Mexicans did not want to be ruled by the French; they wanted to rule themselves. The French eventually left Mexico and each year, people of Mexican heritage celebrate the historic battle at Puebla with food, games, music and dancing.

Cinco de Mayo became very popular in the 1980s, and has been so ever since. It’s a fun filled day, or as they say in Spanish, a festa!

Softball

continued from page B1 from Region 14, for granted. “We love softball any- body,” Granville said. “We just have to take each game as it comes and each team individu- ally. We can’t look over any- body because that could hurt us in the end if we happened to do that.”

The Cowboys are 20-3 overall (10-0 Region 13) and wasn’t really challenging during region schedules, and in five losses all came in larger schools — Rose Elk, Spanish Fork, Tooele, Ridgeline and Eagle (Mahto). The Cowboys also have wins over Bear River, Uintah, Springville, Lehi, Panguitch, Coconino, Desert Hills and Cedar, showing that they have plenty of talent to compete against anyone, regardless of school size.

That success has come with a very young roster that includes just one senior — Rhylee Leach and four juniors who see regular play- ing time in它是, Smith, Marina Clark, and Harley Broadhead. With a lot of the talent being spread out throughout the lineup, this year’s squad, much like last year’s, is going to have a lot of pressure. We’ve been trying not to think too much behind Grand before leap- play.”

— Heidi Taylor, Granville softball coach

“We’ve just gotten better and better. They’re just playing the game that they love.”

— Heidi Taylor, Granville softball coach

Baseball

continued from page B1 play.” The Cowboys have been highly regarded on the base- ball field, starting the season ranked No. 2 in Class 3A behind Grand. Before the Cowboys took on Grantsville they had been playing extremely well, going 6-0 in their last six games. However, Grantsville isn’t holding out any additional pressure despite the lofty expectations placed on them.

“We’re just playing the same as we do every day,” Abrams said. “We’re trying not to think too much about the pressure. We’ve been here before, so we’re hoping to convert it into some wins.”

Granville has one thing more other Class 3A programs don’t: depth. The Cowboys have used nine pitchers this season, with three—dominant starters. Abrams is 6-0 with an anemic 0.34 earned-run average, and esperosas are hitting just .117 of him in 40 2/3 innings across eight appear- ances. Amos Richardson is also 6-0, recording a 3.18 ERA with 30 strikeouts and just five walks, while sophomore Owen Leach is 0-5, 5.07 ERA, 11 home runs and an opposing batting average of .300. Johnson combined with fellow senior Max Cole for seven saves.

Offensively, the Cowboys are led by senior Brady Barney’s .410 batting average, which includes eight doubles and three triples. Johnson is hitting .400 with 13 doubles and a triple, while Arohin hit .394 during the regular season with nine doubles, a triple and two home runs. Thoms led the Cowboys with six home runs, hitting .307 and earning a two-out-high three bases.

“Wwe go out as we do the things we can to control and control our outcome and use that to our advantage,” Abrams said. “At the end of the day, if we go out and play hard, we can accept the results.”

Grantsville baseball coach Aaron Abrams talks to some of his classmen who has played a big role for the Cowboys this season.

Grantsville freshman August Coonge makes a throw from her third base position during a game earlier this season. Coonge is one of several under- classmen who has played a big role for the Cowboys this season.

Stansbury

continued from page B1 at least two of its final three games. If Stansbury again wins the remaining two games, the Stallions would become Region 7’s champion. To win the conference championship, Stansbury needs to get four wins, while Doniphan loses two and Haun loses one. The Stallions defeated the Lakers 10-0 in their first meeting this season.

Tuesday’s game began with the teammates of Stansbury taking the first pitch. The Stallions kept track of how many total bases they gained during the game, and money was donated to cancer research on behalf of Broadhead’s sister. They have raised $27,000 so far.

“I don’t know if we expected that,” Broadhead said. “Obviously, to raise money, you’ve got to get a lot of hits, and we did that today.”

Wednesday’s scheduled rainout with the Lakers was postponed by rain, and the two will play on Monday in Butler. Thursday’s game against Desert Hills will be played at 3:30 p.m.

Stansbury High will serve as the Region 7’s final home game of the season.
