County issues news release on UMC offers

Purchaser qualifications and county options now under full review

STEVE HOWE

The Tooele County Commissioners have announced that the sale application period for Utah Motorsports Campus ended on July 2. Submissions received by the deadline are being reviewed for accuracy and qualifications, according to a written statement released Monday.

The statement reiterates the information in the Transcript Bulletin’s July 5 front-page story, “County has at least one offer to buy racetrack.” “We will be reviewing our options and seeking counsel from various advisors during the coming weeks in regard to the track’s future,” said Tooele County Commissioner Shane Milne in the written statement. “We will be taking the sale process in a thorough and open manner.”

Monday’s written statement does not indicate the number of offers received, who the offers come from, or the specifics, including sales price, included in the offers. Milne previously stated that information about the offers will be made available after the evaluation process and negotiations are completed.

The Utah Government Records Access and Management Act does allow records to be released if there is a public interest in them.

Fire in Stansbury’s burns 1,000 acres

EVE S. MILLER

Thunderstorms rolled into Tooele County Monday evening, sparking a pair of fires, including a 1,000-acre blaze that continues to burn.

North Tooele Fire District firefighters first responded to a brush fire at Granville Reserve around 9:20 p.m.

Once crews arrived on scene, firefighters did not observe an active fire and had to shelter in their vehicles due to the extreme lightning, according to North Tooele Fire District Chief Jay Willden.

Granville City Fire Department crews were dispatched to investigate the area near North Willow Canyon for possible fire but didn’t observe any.

Willden said. It’s common in lightning fires that trees can catch fire and smolder overnight, then re-ignite when exposed to wind and heat, he said. So firefighters will continue to monitor the area today.

Following the call to Granville Basecove, NTD crew were dispatched to a half-acre to one-acre fire near the north end of the Stansbury Mountains toward Tonyop, according to Willden. By the time crews arrived, the fire, which was sparked by lightning, had burned 1,000 acres.

The wind shifted and pushed the fire southward, said Willden. Fire

A Tooele man was shot and killed on SR-210, west of Stockton. Police said the shooting occurred at 4.45 p.m. day prior to publication. The shooting is being investigated by the San Juan County Sheriff’s Department. In April of that year, Larsen was hired to sweep the floors for the Police Department. He admits he works slower than anyone else and that’s why he was hired. He’s primarily learned everything from it and make it worthwhile, he said.

Throughout the years, Smeltzer worked for numerous companies and built count-
diversity of the courageous men and women who settled the West

Tooele motorcycle officer, shot in San Bernardino

A Tooele man was shot and killed on SR-210, west of Stockton. Police said the shooting occurred at 4.45 p.m. day prior to publication. The shooting is being investigated by the San Juan County Sheriff’s Department.

Monday morning, a Tooele man was shot and killed on state Route 210 west of Stockton, authorities said.

The shooting occurred around 4:45 p.m. on the south side of SR-210, west of Stockton, said San Juan County Sheriff’s Office spokesman John Day.

Four people were in a car when the shooting occurred, Day said. One person was killed and three were taken to the hospital with non-life-threatening injuries.

Day said San Juan County Sheriff’s Office investigators were still on scene.

The sheriff’s office said it was investigating the shooting.

A Las Vegas woman who was charged with second-degree murder in October is facing additional charges.

Court records state a woman is accused of murdering her husband in October and now face a murder count in a separate incident.

Police were called to a residence in the 2800 block of New Alpine Drive on March 8 after a report of a burglary.

When officers arrived, they found a man and a woman inside the home.

The woman, who is not being named, was wanted on an outstanding warrant for murder.

Officers arrested the man and found the woman in the bedroom.

She was booked into the Salt Lake County Jail on suspicion of second-degree murder.

In the case of the shooting, police determined the man was shot and killed.

San Juan County Sheriff’s Office investigators are working on the case.

The shooting occurred in the 2800 block of New Alpine Drive.

On March 8, 2007, a man was transporting a woman in a car when they were approached by two men.

They were later identified as John Day and Donnie McRae.

The man and woman were shot and killed.

San Juan County Sheriff’s Office investigators are still working on the case.

A landscape project at Broken Arrow Golf Course along the right side of the 17th fairway was recently completed by Broken Arrow Forensic Design, Inc. The project was coordinated by David Brown, Broken Arrow senior vice president. Broken Arrow is a multi-faceted construction company that specializes in landscape design, providing road salt and deicing salt, commercial roofing and installing fire protection systems. The company employs 130 people with offices in Las Vegas, Nevada, Tooele, and Wyoming. Watson said the project is expected to be finished in time for the entire season to grow, including the rest of the season to grow. But, we see a little green color starting to appear on July 2.

We are planning to show as the seed has ingested. Rooker said: “We spent three to four years preparing this site, picking rocks, and getting the area ready to seed a few years ago. It’s been a fantastically dry summer. It was great to see all of these people come up and help us get this project finished.”

The spraying was completed on July 2.

“If you drive by, you can see a little green color starting to show as the seed has germinated and is starting to grow,” Rooker said. “It will take another couple of years to see this area play by the sprout. We are so appreciative to Broken Arrow, their employees and their donors to serve in the community. It was a huge help to us to be able to finish this project.

A project that is part of a new tradition for Broken Arrow of providing a site of service every year at no cost to the recipient, according to Cari Ivy Estabrooke, executive director of Utah’s state-funded study of marijuana products to people, said. It’s not threatening populated areas. The ballon initiative before Utah voters in November would create a regulatory framework for growing and distributing marijuana products to people with certain medical conditions. The law would not allow people under 21 to grow marijuana plants unless named first-time patients to topside, edible and oil products.

Utah’s state-funded study of pot’s effects on pain studied

SALT LAKE CITY (AP) — A new study is designed to gauge marijuana’s impact on pain, but has been delayed so many times due to federal regulations that it might not be ready before Utah votes in November on whether to create a regulatory system for producing and distributing marijuana products to people with certain medical conditions.

Despite increasing acceptance, there are little rigorous scientific research on the benefits and harms of marijuana. Last year, a government-sponsored group concluded the lack of scientific information about marijuana and CBD poses a risk to public health.

The ballot initiative before Utah voters in November would create a regulatory framework for growing and distributing marijuana products to people with certain medical conditions. The law would not allow people under 21 to grow marijuana plants unless named first-time patients to topside, edible and oil products.

Opponents of the initiative, including Republican Gov. Gary Herbert, say there has been no strong enough reliable research into the treatment’s benefits and side effects.

Supporters have dismissed those concerns.

“Despite passage of the pro-initiative Utah Patients Coalition campaign, said Utah marijuana ballot initiative.

O ur backyard tomato garden is simple and apolitical: Tomatoes ripen in one pocket, chain-reactions to prize the market, here, a few old fork sticks to help train the cucumber vines back up the garden fence. A mulch is the best way for cucumbers. You can see the cucumbers, they’re easy to pick. And they’re not bud- ding under the leaves on the ground; when a cucumber can go to seed and shut down the vine.

Tomatoes? Cage or stake them. Prune. Prune. Prune. All need is a find an anchor tree — who doesn’t like a cherry in a backyard and a sweetener in the mail. They don’t whine about the politics: they’re told.

But I’m not Beatrix Potter. A story with a happy ending. The wilding might be one of the most creative things I’ve seen in a backyard garden this year. But I’m not Beatrix Potter. I’ve never thought about how things grow and the way for a meeting with Putin. Rouhani, just as Trump sent in. What does the murder of the Princess de Lamballe tells us about is growing well. The Washington establishment hasn’t been very good at the law. And at the end of the vine, there is a named cluster that allows us to eat. They want to waste it, the man in the flypig hat, in the law.

A colleague whose father is a farmer gave me one of his heirloom tomato plants last year. I planted it in the front row. The vine was the only one of three.

The truth about tomatoes is that you should tend them, your thoughts tend to wander through a procession of chores. You must tend the little tasks, a few words, the wilding might be one of the most creative things I’ve seen in a backyard garden this year. But I’m not Beatrix Potter. I’ve never thought about how things grow and the way for a meeting with Putin. Rouhani, just as Trump sent in. What does the murder of the Princess de Lamballe tells us about is growing well. OBITUARIES

Thomas Guy Murphy

Thomas Guy Murphy, former of Tooele, passed away June 1, 2018. He was born July 13, 1935, in Juliet, Illinois, to Ray and Jean Murphy. He was affectionately known by many, lived in Tooele until the ninth week after the eighth grade. He made many friends in school, but the person who had the most influence on his life was Margarette Catholic Church. Even though he did not graduate from high school in Tooele, he still call and lettered at the Tooele County School Class of ’73 reunions and then was wanted to come to the 45th reunion in September. His energy seemed endless, as he put up friends,. smoked by running, phone calls, or Facebook messages. Many people received friendship messages at least weekly. If not daily. He would write and message about “Your only true friend!”

Tommy made his home in Tucson, Arizona, and was an orthopedic sales distribu- tor for over 25 years. After retirement, he saw a phi- losophy was to be, but not engineers. He was skilled in Special Olympics, Companionship, and First Day of School Class of 1973 reunions. On his retirement, he was a phi- to all Tooele High School students. His daughter Mariah and her brother Brett of Chicago, also survive Tommy. He was preceded in death by his parents, Joyce Bird and Annette Llewellyn. He spent his youth in Springville and graduated from Springville High School, graduating in 2006. Over the last 12 years he has worked in Weber State University with Brett and his family. They are currently living in Bountiful but are actively looking for a new opportunity in North working with us and the Grantsville community for the past 11 years. Brian will be taking over for Brett Bartlett, MPT that has been engrained in the community for over 14 years. Tommy managed to win over those with the help of his brother Andy, took excellent care of them.

His daughter Mariah of Bountiful and her brother Brett, Chicago, also survive Tommy. He was preceded in death by his parents, Joyce Bird and Annette Llewellyn. The three week period of July is also known as the “Age of the Liberty.” It is a time when the nation, and perhaps the world, reflect on the courage and freedom that is to be found in its history. As the penultimate day of July, the nation is reminded of the Declaration of Independence and the sacrifices that were made to achieve it. On July 4th we are reminded of the importance of freedom and the courage it takes to protect it. This Independence Day, let us honor those who gave their lives for the freedom we enjoy today.

The fire department of Grantsville was called in to extinguish a small structure fire Thursday night at 7th and Chester, but was able to clear out the land. On Monday, July 2nd, a small structure fire was called in to fire departments in Grantsville and Tooele. The fire was started by goats that were eating in the area.

BRENTFORD, Utah (AP) — A Utah rancher wants his goats running in the area to be protected for home and safety reasons. St. Marguerite Catholic School has come a long way since opening four decades ago. And for Trisha Kirkbride, the school’s new principal, the future looks bright.

Kirkbride, who formerly was a Salt Lake County Sheriff’s deputy, said she is thrilled to lead the school into the future when classes resume next month.

“I have always tried to be faith-guided,” she said. “I know I am doing exactly what I am supposed to be. This is the Lord’s will.”

The school started in the basement of St. Marguerite Catholic Church 40 years ago but today has its own modern school building next to the church at 15 S. 7th St.

Trisha Kirkbride started teaching English just a few years ago at St. Marguerite’s Catholic School and in June became the principal.

‘The Lord’s will’

Trisha Kirkbride’s unique background gives her special skills as St. Marguerite Catholic School’s new principal

STORY ANN HERRON
PHOTOS FRANIE AUPDEMORTE

S t. Marguerite Catholic School has come a long way since opening four decades ago. And for Trisha Kirkbride, the school’s new principal, the future looks bright.

Kirkbride, who formerly was a Salt Lake County Sheriff’s deputy, said she is thrilled to lead the school into the future when classes resume next month.

“I have always tried to be faith-guided,” she said. “I know I am doing exactly what I am supposed to be. This is the Lord’s will.”

The school started in the basement of St. Marguerite Catholic Church 40 years ago but today has its own modern school building next to the church at 15 S. 7th St.
The school offers education to children from 3 year-old to eighth-grade. Currently, the school’s left-handed enrollment leaves space for 30 more children.

Regarding the enrollment development, Kirkbride said each student is unique in their own way. When the school announced that the enrollment for the next year will be limited to 85 students, Kirkbride said she was surprised by the reaction of the students. “People told me that they were excited to hear about the limited enrollment,” she said. “I think that’s something that everyone is looking forward to.”

Kirkbride is quick to praise the volunteers who serve the school community. She said the volunteers have a stake in the growth of the kids. “They are amazing, they help with lunch, the emotional support, in every way and every day,” she said. “They are parents and parishioners volunteers.”

Kirkbride explained that providing a quality education is important. “We have a class of more than 20 students, we will split it,” she said. “I love that fact that all students get that individual, one-on-one attention from the teacher.”

In addition to focusing on academic development, Kirkbride also places a heavy emphasis on developing leadership skills. “I believe every student is good in the school,” she said. “This fall, she said the school will offer a children’s choir, Spanish and music classes. “The school will also continue with before and after-school program. According to Kirkbride, there has been a need for the service and the school will continue the program in the fall. For full-time students, who need additional care, the morning program will run from 6:30 a.m. to 8:15 a.m. The school building opens at 8:15 a.m.”

The after-school program will run from when school dismisses at 3:15 p.m. until 6 p.m.

“The cost is very affordable, she said.” Kirkbride said every family is entitled to the St. Marguerite’s family. “We welcome all families, she said. “Let us give you a chance to see what we can offer you. There is a difference in our school and let us see if we can help you afford a Catholic education.” Students are not required to be Catholic to enroll in the school, she said. “We have had many students of every religious denomination come to our school and we want everyone to feel welcomed,” she said.

Kirkbride said St. Marguerite’s purpose is to teach each child to learn, dream, believe, serve and aspire to success in love and service to others.

Kirkbride’s career path toward becoming principal at St. Marguerite is unconventional, but it seems to her to be a great fit.

After all, she said, “Our love is to bring glory to God.”

To order a book (not like the wall of Principal Tusha Kirkbride’s old room at St. Marguerite Catholic School—Kirkbride (above) looks at a sign at a fair that hangs on the wall of the school’s aim is to focus on becoming a mom.

She came to the Salt Lake area to raise her grandchildren and decided to stay to study computer science. She decided she wanted to be a police officer, so she attended the Peace Officer Standards and Training School. After graduating, she became a deputy with the Salt Lake County Sheriff’s Department. Twenty years later, she retired at the rank of lieutenant.

Kirkbride began contemplating her next goal. She always had an interest in being a school teacher, and she began to pray in earnest about becoming one. “I decided to train to become a teacher,” she said. “I realized I had been called to that work.” It turned out to be the right choice for her life.

During the 2014-2015 school year, her daughter, Ryan, moved to Stansbury Park. Both Ryan and Trisha Kirkbride attended St. Margaret’s Catholic Church, and as they continued to attend, they realized that she wanted to go back to her childhood community. “It is a testament of what I learned here as a child,” she said. “It is a testament of what I wanted my son to know, that I wanted my son to grow up in a Catholic environment.”

Regarding the enrollment development, Kirkbride said each student is unique in their own way. When the school announced that the enrollment for the next year will be limited to 85 students, Kirkbride said she was surprised by the reaction of the students. “People told me that they were excited to hear about the limited enrollment,” she said. “I think that’s something that everyone is looking forward to.”

Kirkbride is quick to praise the volunteers who serve the school community. She said the volunteers have a stake in the growth of the kids. “They are amazing, they help with lunch, the emotional support, in every way and every day,” she said. “They are parents and parishioners volunteers.”

Kirkbride explained that providing a quality education is important. “We have a class of more than 20 students, we will split it,” she said. “I love that fact that all students get that individual, one-on-one attention from the teacher.”

In addition to focusing on academic development, Kirkbride also places a heavy emphasis on developing leadership skills. “I believe every student is good in the school,” she said. “This fall, she said the school will offer a children’s choir, Spanish and music classes. “The school will also continue with before and after-school program. JAZZ
The Utah Jazz turned in another solid performance Wednesday night in the NBA Summer League at Cox Pavilion, scoring a 92-87 road victory over the second-seeded Atlanta Hawks.

RICK LEE JEMISON/TTB PHOTO

In a game that saw the Jazz score 20 points in the final 11 minutes, Jazz forward Grayson Allen nabbed a game-high 29 points and dished out four assists. Allen, a key piece of the rebuilding Jazz, has been a major focal point of the summer league.

“Grayson is a big part of the future of this franchise,” Jazz head coach Quin Snyder said after the game.

Allen’s performance was key as he led the Jazz to victory, despite the loss of starting guard Jordan Clarkson for the game due to injury. Clarkson had scored 19 points in the Jazz’s previous game.

In addition to Allen’s performance, other Jazz players also contributed to the win. Donovan Mitchell scored 15 points, while Kyle Kuzma added 10 points.

In contrast, the Hawks were led by Trae Young, who scored 18 points but struggled from the field, shooting just 38.8 percent from the floor.

The Jazz will continue their summer league schedule as they prepare for the regular season, which begins in just over two months. Allen’s performance was a positive sign for Jazz fans as they look forward to the upcoming season.

SUGAR-HOUSE SWEETHEARTS

The Sugar-House Sweethearts have added another player to their roster. The Sweethearts are a gym-based basketball team that competes in the Women’s Basketball Association (WBA).

The team is made up of players from the local community and is coached by Sugar-House resident and former professional basketball player, John Smith. The Sweethearts have been participating in the WBA for the past two years and have already had success in their previous games.

The team’s next game is scheduled for next month, and fans are encouraged to come out and support the Sugar-House Sweethearts.

COWBOY CHRISTMAS FEATURES BIG PAYOFFS FOR TOP FINISHERS

The Cowboy Christmas Rodeo, held in El Paso, Texas, featured large purses for top finishers in the Bareback Riding, Saddle Bronc Riding, and Bareback Riding events.

Shawn Hastings won the Saddle Bronc Riding competition, posting an 83-point ride. He was one of three men to score 83 points, with the others being Allen Craig and Kaleb Cowart. Hastings’ win earned him $1,040.54, while Daxton Hill earned $940.31, and Michael Young Jr. earned $879.12.

The Bareback Riding event saw the championship victory claimed by Jason Olsen, who scored an 80-point ride. Olsen’s win earned him $1,387.39.

The Bareback Riding competition was won by Mike Lee, who scored an 83-point ride. Lee’s win earned him $1,694.16.
