New elementary school in Grantsville part of bond deal

TIM GILLIE

The ground was broken in Grantsville Tuesday night for the home of the green and black tigers.

Tooele County School District officials, contractors and architects, along with other community members took part in turning over a spadeful of dirt for the future site of Worthington Elementary School.

Tooele County School Board President Nick Miller Construction of Salt Lake City is the contractor for the

The project budget is for 520 million, but that figure includes furnishings, fixtures, equipment, utility fees, and architectural fees, which are not included in the bid for construc-

tion, according to Michael Garcia, TEDCO construction coordinator.

Worthington is a historical name for the area north of where the elementary school is being built, according to school board member Bill Goodman.

According to a history of the Tooele County School District, the name is associated with an area on the south end of present day Grantsville, overland parties in the 1860s moved in the location.

The place got its name from a series of holes in the ground.

Church plans ‘Big Food Giveaway’

CEILLY SUTTON
courtesy

A local church, New Life Christian Fellowship, is plan-
ning a Big Food Giveaway to help those in need.

On May 12, from 1 to 3 p.m., pizza, bible study and members of the church will gather to give away hundreds of food boxes to those in need.

Unprofitable food donations are welcome, according to Runyon.

“We are looking for people who need or would like some food,” said Runyon. “They won’t have to prove any kind of financial need. We give you to everyone who comes in.”

When those in need of food arrive, someone from the church will ask them their name and the number of those in their household.

“The just helps us to feed food in from the food bank,” said Runyon. “During the food giveaway, we can line up the street and take away all of the food, then we bring boxes of food to the car and load them into their trunks.”

Tooele High School students host a Make-A-Wish Foundation carnival

CEILLY SUTTON

Tooele High School students will host a Make-A-Wish Foundation carnival on Saturday evening to make a kid’s wish come true.

All proceeds will help the Make-A-Wish Foundation fulfill a boy’s wish to have a camp trailer for his family, organized with student leaders at the high school. The carnival will be sponsored by all of the high school class officers.

Tooele High School has never done anything like this before, according to Valdez.

“This is the first time we have ever done something with Make-A-Wish and this is actually something that we plan to do every year from here on out,” Valdez said. “They will just pay up with a local family in need. The family that we are actually doing this for is from the Tooele area, so all of the money stays local.”

Prior to the carnival, Tooele High School students participated in a fun

First president of TATC passes away

Snelson known as pioneer and advocate for technical education in Tooele

Sneal Snelson, former president of Tooele Applied Technology College (TATC), passed away on April 29 at the age of 74. He served as president of TATC from 1984 to 1996.

During Snelson’s tenure at TATC, the school opened at Tooele City, Utah. The school had moved from its former site at Roy High School, following the school’s closure.

Snelson began his career as an instructor at Roy High School, where he taught for 30 years. He later served as director of the school’s Adult Education Program.

He retired from education after 40 years of service at Tooele City School District, where he began his career as an instructor at Roy High School, followed by various high school administrative positions.

Snelson was known for his leadership and dedication to technical education in Tooele County, Utah.

Snelson, a native of Tooele, was a 1962 graduate of Tooele High School. He earned a Bachelor of Science degree in Education from Utah State University in 1966.

He served as president of Utah Technical College when the college was chartered by the state legislature in 1984.

He was elected to the State Board of Education in 1988 and served as the chair of the Board of Directors for 10 years.

Sandel is survived by his wife, six children, 12 grandchildren, and 12 great-grandchildren.

Sandel was a lifelong resident of Utah. He was born in Tooele on April 29, 1947, and grew up in the town where he attended school. He married his wife, Carol, in 1967, and they raised their family in Tooele.

Sandel was known for his leadership and dedication to technical education in Tooele County, Utah.

Sandel was a member of the Utah Technical College Board of Directors from 1984 to 1996. He was elected to the State Board of Education in 1988 and served as the chair of the Board of Directors for 10 years.

Sandel was a leader in the community and a respected member of the Tooele County Education and Training Corridor, which is a critical component of economic development in Tooele County.

Sandel’s leadership and contribution to Tooele County was recognized by various organizations and individuals.

Chubby's Café Tooele hosts first cajun festival

Louisiana owner brings alligator, crawfish and live music to Tooele

CHUBBY’S CAFE TOOELE

Looking for some Crawfish, alligator, and other south- ern dishes? Chubby’s Café in Tooele will have their first cajun festival on May 15.

The restaurant is planning on flying in 600 to 700 pounds of live crawfish for the festival, according to Jim Moak, owner and manager of Chubby’s Café. Moak said crawfish is full of flavor.

“The way we cook our crawfish, it’s super flavorful,” Moak said. “I would almost say that it tastes like a gummy jelly. It’s basically the same type of meat as lobster, but it is little firmer. It’s gummier and has a lot more flavor.”

Chubby’s Cafe, during the cajun meal will come with a side of crawfish, a side of coles, and prawns.

Moak and his employees will be serving boiled crawfish — a Cajun tradition. Boil crawfish — a type of a 锅, garlic, and lemonade, and cooking an alligator on the grill.

From noon to 2 p.m., there will be a live alligator and a swampy turtle people who will be able to take photo with, and a swampy turtle.

The band will come for dinner from 5 p.m. to 7 p.m., according to Moak.

There will also be a beaux house for children “It’s going to be a real fun for the kids, especially with how cramped our time line is,” Moak said.

Although this is the first cajun festival that Chubby’s Cafe has hosted their cajun festival, other Chubby’s locations host one every year.

“This is something that a lot of people’s experience before, you know? It’s something that we have to do every year, cooking, garlic, boiling, and lemonade, this is a regular meal for us, so no less sharing the experience of how it’s been tried it yet,” Moak said.

Moak added that he is excited to see the alligator on the grill. Moak said crawfish meal will need to be purchased for $10.95 or at chubby’s store. Tickets can be purchased in store for $16.95 or at chubbys-cafe.com.

Tickets are valid for people to enjoy the food and music.

CBD for chronic pain: The science doesn't match the marketing

Raymond Michel Stephenson

Raymond Michel Stephenson came quietly into the world on October 19, 1959, the son of his teen brother, Alexander Mitchel. His parents and siblings of Denver, Colorado; Michael and Donna Stephenson, and Ayden, and their sister, Ryne, celebrated the teasing kicks they received from the two boys during these last few kicks they received from the two boys during these last few weeks. Ray attended elementary school in a private school, where he developed a love of reading and music.

Raymond Michel Stephenson was a quiet and unassuming individual. He was a gifted musician and loved playing the guitar and drums. He was also an accomplished writer and his poetry was widely published in literary journals.

Raymond Michel Stephenson passed away on May 6, 2021, leaving behind his parents, Alexander and Joanne Stephenson, his sister, Ryne, and his brother, Alexander. In addition to his family, he leaves behind his beloved cat, Munchkin, and his loyal companion, Ruby.

Raymond Michel Stephenson was a kind and gentle soul, and his memory will be cherished by all who knew him. He will be deeply missed by his family and friends.

John William Kurtz

John William Kurtz, age 74, passed away on May 1, 2021.

John was born on October 19, 1946, in Tooele County, Utah, to John and Suzanne (Feeney) Kurtz. John was the fifth child of seven children, five boys and two girls. He attended Tooele High School and was a member of the football team. After high school, John joined the U.S. Air Force and served as a radio operator for the Strategic Air Command. He later attended the University of Utah and earned a degree in Business Administration.

John worked for the Grantsville Irrigation Company for many years, starting as a laborer and eventually becoming a manager. He was a devoted husband, father, and grandfather, and was known for his hard work and dedication to his family.

John was preceded in death by his parents, John and Suzanne Kurtz, and his sister, Mary Ann. He is survived by his wife, Suzanne Kurtz; his children, John Jr., John William II, John William III, and John William IV; and his grandchildren, John William V, John William VI, and John William VII.

John's love for his family, his work, and his community will be deeply missed. He was a true gentleman, and his spirit will live on through those who loved him.
Stansbury golfers clinch state tourney berth

Stansbury’s Class 4A boys golf team clinched its third straight state tourney berth Tuesday with a 357 in the Region 10 finale at Tooele Community Field. The Stallions have led or shared the top spot in Region 10 all season and will take part in the state meet May 20-21.

Tooele’s Lewis caps season with sixth-place finish

Tooele’s John Lewis capped his high school track and field career Tuesday at University of Utah’s Ute Park. Lewis ran 3:30. He placed sixth in the 1,500-meter run with a time of 3:54.36.

Richfield upsets Granteville in state soccer playoffs

Richfield beat Granteville 2-1 in the second round of the Class 3A boys soccer playoffs on Wednesday. The Bears clinched their fourth straight state playoff berth.

Stansbury golfers clinch state tourney berth

Stansbury golfers Devon Carson strolls the ball during an April 16 match against Tooele in Region 10 play at Stansbury High School. Collins and the eighth-seeded Stallions beat No. 9 Ogden 4-3 in a penalty-kick shootout to advance to the second round of the Class 3A state boys soccer tournament on Wednesday, advancing Tuesday a trip to Draper to face top-seeded Juan Diego in a state quarterfinal game next Wednesday.

Darren Vaughn says scouting is key to success

Darren Vaughn says the Ratings Percentage Index rankings were kind to the Grantsville softball team, which had yet to muster a goal. Richfield could smell victory into the net to slice Richfield’s lead to 2-1. Trevor Tuckett, who headed it, centered the ball to junior senior striker Jj Backus who put a shot to the top left of the net, but the goalie’s keepers hand turned it away.

Tooele transcripts

The Tooele softball team clinched the Region 10 championship before going up 2-0 early in the contest. Larry Ogden (8-4) made its next attempt to tie the game, Larry and No. 15 North Sanpete, and No. 10 Union will take on No. 8 Juan Diego in the first two games of the Class 3A state tournament.

Richfield upsets Granteville in state soccer playoffs

Richfield beat Granteville 2-1 in the second round of the Class 3A boys soccer playoffs on Wednesday. The Bears clinched their fourth straight state playoff berth.

GHS softball team to host first-round pod

Baseball team travels to Price to face No. 5 seed

Not all is sunshine for the Bears, who lost to Juan Diego’s 389. However, Juan loser meeting the Emery/Taylorsville-based Tigers would end the Stallions’ season. Collins, keeper Devun Collins faced in the pressure-packed than the keeper’s Class 4A second-round boys soccer tour-}

STANDARDS WRAP

Stansbury’s Class 4A boys golf team clinched its third straight state tourney berth Tuesday with a 357 in the Region 10 finale at Tooele Community Field. The Stallions have led or shared the top spot in Region 10 all season and will take part in the state meet May 20-21.

Tooele’s Lewis caps season with sixth-place finish

Tooele’s John Lewis capped his high school track and field career Tuesday at University of Utah’s Ute Park. Lewis ran 3:30. He placed sixth in the 1,500-meter run with a time of 3:54.36.

Richfield upsets Granteville in state soccer playoffs

Richfield beat Granteville 2-1 in the second round of the Class 3A boys soccer playoffs on Wednesday. The Bears clinched their fourth straight state playoff berth.

Stansbury golfers clinch state tourney berth

Stansbury golfers Devon Carson strolls the ball during an April 16 match against Tooele in Region 10 play at Stansbury High School. Collins and the eighth-seeded Stallions beat No. 9 Ogden 4-3 in a penalty-kick shootout to advance to the second round of the Class 3A state boys soccer tournament on Wednesday, advancing Tuesday a trip to Draper to face top-seeded Juan Diego in a state quarterfinal game next Wednesday.

Darren Vaughn says scouting is key to success

Darren Vaughn says the Ratings Percentage Index rankings were kind to the Grantsville softball team, which had yet to muster a goal. Richfield could smell victory into the net to slice Richfield’s lead to 2-1. Trevor Tuckett, who headed it, centered the ball to junior senior striker Jj Backus who put a shot to the top left of the net, but the goalie’s keepers hand turned it away.

Buffins Fall in SlugFest

Stansbury coach Jacob Jones said, “They had a couple breakdowns (in regulation) where he came out really easy and really cut down the angles and made it really hard for them, so they missed those. On their fifth (overview) look, if they would have taken that, obviously they would have been net, and Ben nailed that one. He touched the face of the net with his kick to hand, and you can’t ask for anything more than that.”

Tom Hilliard and Dan Sylvestri scored on the first two (of four) that hadn’t played a game since a 2-0 win over Tooele on April 13. The Stallions’ final two Region 10 games were declared no-consensuses because of a COVID-19 outbreak, which had Stansbury struggling in the early part of Wednesday’s games.

“We didn’t look out,” Jones said. “We had several mistakes. We had bad touches, where in the middle of the season we were putting the ball in the back of the net in similar situations. There was definitely some rain that we were knocking off throughout the game. The first 15 minutes were really hard, but we kind of figured it was going to be that way because we did have that layoff for so long.”

The Stallions will meet Juan Diego for the third time this season next Wednesday in Draper. The Stansbury Eagles (15-2), who beat Logan 5-0 in their second-round game, earned a narrow win over Stansbury during the Region 10 golf meet on March 15 on Juan Diego’s home field after playing over a 3-3 draw through regulation and two 10-minute overtimes, as well as a 1-0 win on April 8 in Stansbury Park.

“We’re super excited,” Jones said. “We have the last year 1-0 and we lost those two really close ones this year. We’ve always played them really tough on their field and it’s always been a fun game. All the coaches and all the players, once we use that, that we knew we had a really, really good chance to move on. It’s something but circumstance with a familiar opponent at a familiar place.”

Stansbury senior Skylin Riley and Stansbury junior Tormondsen each finished in the top-10 in the final Region 10 girls golf individual standings. Tormondsen finished tied for seventh, and Riley was eighth. Stansbury finished third in the final team standings and will advance to the Class 4A state tournaments.

Golf

The Tooele Transcript Bulletin does not have a full list of scores for the Region 10 girls golf meet.

Stansbury senior Skylin Riley and Stansbury junior Tormondsen each finished in the top-10 in the final Region 10 girls golf individual standings. Tormondsen finished tied for seventh, and Riley was eighth. Stansbury finished third in the final team standings and will advance to the Class 4A state tournaments.

The Grantsville volleyball team easily rolled to a 25-12, 25-14, 25-10 win over Summit Academy. The Grantsville volleyball team traveled to Grantsville for the Region 11 girls golf match of the season, finishing in the top-10 in the final Region 10 girls golf individual standings. There was definitely some rain that we were knocking off throughout the game. The first 15 minutes were really hard, but we kind of figured it was going to be that way because we did have that layoff for so long.”

The Stallions will meet Juan Diego for the third time this season next Wednesday in Draper. The Stansbury Eagles (15-2), who beat Logan 5-0 in their second-round game, earned a narrow win over Stansbury during the Region 10 golf meet on March 15 on Juan Diego’s home field after playing over a 3-3 draw through regulation and two 10-minute overtimes, as well as a 1-0 win on April 8 in Stansbury Park.

that were filled by water from underground springs, accord-
ing to overhead embankments and early historians from Thornton.

Reports are, there were 20 of these holes. They were around six to nine inches in diameter and they were up to 70 feet deep. They refilled themselves with fresh cold water, but did not overflow.

The design did not take long because the plans follow the
district officials.

2021 Toyota Land Cruiser Heritage Edition fuses experience and capability

Craig & Darren Coovery and consumers

The Toyota Land Cruiser is a very different from its humble beginnings back in 1951, and it truth be known, can trace its roots back to World War II. Back in 1941 when the Japanese army occupied the Philippines they came across old BMM II Jeep and sent it back to the main land wanting Toyota to come up with a similar strike vehicle that could be used to further the war effort. Later that same year the army asked Toyota to come up with a taxi-like truck that could get to places larger trucks could not, so they developed a version of the new Jeep type vehicle but gave it more truck like attributes.

By 1950, the Korean War had started and Japan was still rebuilding from WWII, when the U.S army asked Toyota to make 100 active Jeeps from storage. When they provided them, the original Toyota Land Cruiser was born from humble and somewhat controversial circumstances.

It was still three years until the same Land Cruiser was actually assigned to the new four-wheel drive or anywhere vehicle. That came after a pro- testing of the new vehicle was driven by a test driver to the vehicle. This came after a pro- testing of the new vehicle was driven by a test driver to the vehicle. This came after a pro-

After a week with the Toyota Land Cruiser we were definitely impressed and got very used to driving a full- sized SUV. To that point, getting in and out of tight spaces was a bit of a challenge in the Land Cruiser as it is designed like the large body-on-frame vehicles that were once so popular. We could even disconnect the sway bar to further improve off-road capability, so we definitely impressed and got very used to driving.

The Toyota Land Cruiser 70 Series is very different from its previous generation. The 70 Series was produced from 1990 to 2007.

The Toyota Land Cruiser Heritage Edition is a limited-production model that was introduced in 2021. It is a special edition of the Toyota Land Cruiser that celebrates the 70th anniversary of the Land Cruiser.

The Heritage Edition features a unique color scheme that pays homage to the original Land Cruiser design.

The interior of the Heritage Edition is also unique, with leather upholstery that matches the exterior color scheme. The seats are also trimmed in leather that matches the exterior color.

The Toyota Land Cruiser Heritage Edition is powered by a 5.7-liter V8 engine that produces 381 horsepower and 401 lb-ft of torque.

The transmission is a six-speed automatic.

The Heritage Edition is only available in two-wheel drive.

The Heritage Edition is a great choice for those who want a special edition of the Toyota Land Cruiser. It is available in both front-wheel and four-wheel drive configurations.

The Heritage Edition is a limited-production model, so if you’re interested, you should act soon!
Some strategies to launch kids to career success

Q: My husband and I have worked remotely while our kids were in remote school. I noticed my kids taking a more relaxed approach to work. Now that I’m returning to work, I’m concerned about how to launch my kids to career success.

A: This is a great time to start thinking about career navigation. You can start by asking your kids questions:

1. What is your dream job? Why?
2. What skills do you think are important for a successful career?
3. What is your favorite subject in school and how can it help you in your future career?

As you talk to your kids about their career aspirations, remember to encourage them to explore different paths and consider the potential challenges and rewards of each option. It’s important to provide guidance and support, but also to allow them the autonomy to make their own choices and pursue their passions.

Dear Amy:

We’re concerned about the way our kids are handling money. They’re in high school and we feel like they need to be more financially responsible.

A: It’s important to teach your kids about money management. You can start by having regular discussions about the costs of living, including rent, utilities, groceries, and transportation. Talk about the importance of saving money for the future and explain the concept of budgeting.

You can also involve your kids in the budgeting process. For example, they can help with managing household expenses or contribute to a savings account. By doing so, they’ll learn the value of hard work and the importance of financial planning.

Dear Amy:

My son is a college student, and I’m worried about his social life. He seems to be spending a lot of time alone and not engaging with his peers.

A: It’s important for your son to have a balanced social life. Encourage him to participate in extracurricular activities, club sports, or volunteer work. This can help him meet new people and develop important social skills. It’s also important to make sure he’s getting enough rest and exercise.

However, it’s important to also respect his need for alone time. Everyone has different social needs, and it’s okay for him to have moments of solitude. As long as he’s maintaining healthy relationships and engaging in positive activities, there’s no need to worry.

Dear Amy:

My son is in high school and I’m concerned about his social media use. He spends a lot of time on Facebook and Instagram.

A: It’s important to regulate your children’s social media use. Encourage them to use social media responsibly and to seek support when they feel overwhelmed by their online interactions.

You can also set boundaries around social media use. For example, you can limit screen time or establish rules about what types of content they can access. By doing so, you can help your kids navigate the complexities of social media and maintain healthy relationships.

Dear Amy:

My daughter is in college and I’m worried about her eating habits. She seems to be skipping meals and not getting enough nutrients.

A: It’s important to ensure your daughter is getting proper nutrition. Encourage her to eat a balanced diet and to consult with a healthcare provider if she’s not feeling well.

You can also involve her in meal planning and preparation. This can help her develop healthy habits and provide her with a sense of ownership over her food choices. By doing so, you can help her maintain a healthy lifestyle and avoid potential health issues.
Myasthenia gravis hits nerve/muscle junction

Myasthenia gravis is an autoimmune neuromuscular disease characterized by weakness in muscle groups — particularly those that control movement such as the eye muscles, the chewing muscles, and those involved in breathing. The immune system mistakenly attacks nerve-muscle receptors, weakening the body's ability to move parts of the body. It is a chronic condition in which muscles weaken after repeated use and fatigue more easily with subsequent use.

Some experts use plasmapheresis or immunosuppressive drugs to treat symptoms. The most common reason for MG is thymus tumors, which are found in the upper chest behind the sternum (breastbone), and are a common indication point for MG. In 1985, 15% of people with MG tumors of the thymus removed their thymus. Surgical removal of the thymus is often performed to improve symptoms.

In addition to removal of the thymus, there are other treatments that can be attempted if the medicine that helps the thymus does not work well, such as prednisone. This may work within minutes. The treatment is treated as part of the antibody attacking the receptor. Plasmapheresis, the physical removal of antibodies, takes a few days to work and may work more effectively than prednisone. However, it may not work at all and some patients may do worse on plasmapheresis.

Other treatments include corticosteroids, immunosuppressive drugs, and surgical procedures. Each treatment has its own risks and benefits and is tailored to the individual patient.

Conclusion

Myasthenia gravis is an autoimmune disease in which the body's immune system mistakenly attacks nerve-muscle receptors, weakening the body's ability to move parts of the body. It is a chronic condition that may be treated with various medical interventions, depending on the individual patient.

Strange but True

Strange but True is a weekly column that explores the unusual and the unexpected in the world around us. From the mundane to the mysterious, we uncover the strange and the true, sharing stories that challenge our assumptions and broaden our perspectives.

The belief that people who are allergic to certain foods can develop allergies to other foods is a common misconception. In reality, evidence suggests that people who are allergic to certain foods cannot develop allergies to other foods. This is because the immune system recognizes specific allergens, and cross-reactivity is rare.

On the other hand, some individuals may develop food sensitivities, which are not the same as allergies. Food sensitivities occur when the immune system reacts to a food, but the reaction is not as severe as an allergy. Food sensitivities are more common than food allergies, and they can cause a variety of symptoms ranging from digestive issues to headaches.

Hammering out the words of aNativeindependentofindigenous people and languages along with a resource of literature collected from the collective experiences of the Tewa Nation and its predecessors, this magnificent volume celebrates the Native people of North, Central and South America: their beliefs, their history, and the realization that God does indeed hold the key to our future. This book is a tool to believe in yourself, to fulfill your deepest needs.

The Seven Deadly Sins

Shorten a Student’s View of the World

In this entertaining collection we will look at such mysteries as how to get your work done, some of the strangest beliefs and customs of the world, and why the universe seems so full of mystery. And if you begin with a simple faith and then progress to a more sophisticated, more complicated one, you will find that you are not only扩大ing your knowledge but also increasing your understanding of the world. In this collection, ordinary people can view the universe and its connotations in a new light — a light that only philosophy can produce.

Community gardening programs have many benefits

Community agriculture continues to grow, and new projects are on the horizon. There are many opportunities for our community. The goal of community gardening is to create a more accessible and sustainable food system. By planting and preparing food locally, community gardens can help to reduce food waste and support local economies. In addition, community gardens can provide physical and mental health benefits to the people who use them. They can also serve as a space for social interaction and community building.

Garden

acquired with how they look. As you get experience, the productivity increases and you can have more fruits. Both small and large trees are available in the fruit orchard. However, they will not be very productive with food that is harvested. The small trees are better for planting near your house, while the large trees are better for planting near your garden or yard. The right size of the tree will depend on the space available and the amount of sunlight it receives. The type of soil you choose will also affect how well your tree grows.

Consider the maintenance requirements when you plant a tree. Pruning from time to time is necessary to keep your trees healthy. It will also help improve their appearance. In addition, you will need to water and fertilize your trees regularly. Pruning is best done in the spring or early summer, while watering should be done at least once a week during the growing season.

Small fruits

Tree fruits

when they will be ready to harvest. However, you can also eat them while they are still young, as they will keep on growing better. These fruits are very nutritious and are rich in vitamins and minerals.

Vegetables

The following is a list of edible plants that are known to make a great basket:

- Most annual vegetables are ready to pick once they reach 60 days after planting.
- Most vegetables are ready to pick once they reach 60 days after planting.
- Most vegetables are ready to pick once they reach 60 days after planting.
- Most vegetables are ready to pick once they reach 60 days after planting.
- Most vegetables are ready to pick once they reach 60 days after planting.

In addition, you can also include herbs in your basket. Herbs are easy to grow and can add a lot of flavor to your food. They can be dried and used in a variety of recipes. You can also use them to make tea, to flavor soups or sauces, or to make omelets or sandwiches.

You can also include fruits in your basket. Fruits are rich in vitamins and minerals and are a great source of energy. They can be eaten fresh or used in a variety of recipes. You can also use them to make jam, to flavor cakes or pies, or to make smoothies.

The following is a list of fruits that are known to make a great basket:

- Most fruits are ready to harvest 4-6 weeks after planting.
- Most fruits are ready to harvest 4-6 weeks after planting.
- Most fruits are ready to harvest 4-6 weeks after planting.
- Most fruits are ready to harvest 4-6 weeks after planting.
- Most fruits are ready to harvest 4-6 weeks after planting.

In addition, you can also include nuts in your basket. Nuts are rich in healthy fats and are a great source of protein. They can be eaten fresh or used in a variety of recipes. You can also use them to make bread or to flavor soups or sauces.
