Epidemiologist answers frequent questions about COVID-19 vaccines

Compiled by Tim Gillie

The Tooele Transcript Bulletin asked John Contreras, Ph.D., MSPH, an epidemiologist who serves as the deputy director of the Tooele County Health Department, some questions about the safety and effectiveness of COVID-19 vaccines. His answers can be found below.

Q: Is the vaccine unsafe?
A: No. The vaccine has gone through multiple phases of clinical trials and has been approved by the Food and Drug Administration (FDA) and the Centers for Disease Control and Prevention (CDC).

Q: Is the vaccine experimental?
A: No, the vaccine is not experimental. It has been thoroughly tested and proven to be safe and effective.

Q: Is the vaccine effective?
A: Yes, the vaccine is highly effective. According to the FDA and CDC, the COVID-19 vaccines are 95% effective in preventing COVID-19 illness.

Q: Is the vaccine safe for children?
A: Yes, children have been included in the clinical trials and the vaccine has been found to be safe and effective for children.

Q: Can the vaccine cause long-term effects?
A: No, there is no evidence that the COVID-19 vaccines cause long-term effects. In fact, the benefits of the vaccine far outweigh any potential risks.

Q: Can the vaccine cause other illnesses?
A: No, the COVID-19 vaccines were designed to prevent COVID-19 illness. There is no evidence that they can cause other illnesses.

Q: Can the vaccine cause you to test positive for COVID-19?
A: No, the COVID-19 vaccines do not cause you to test positive for COVID-19. They prevent infection and illness.

Q: Can the vaccine cause breakthrough COVID-19 illness?
A: Yes, breakthrough COVID-19 illness is possible, but it is rare. Among the state's fully vaccinated population, there were 10 deaths that were attributed to COVID-19. This is 0.02% of the fully vaccinated population.

Q: Can the vaccine cause hospitalization?
A: Yes, breakthrough COVID-19 illness can cause hospitalization. There were 10 hospitalizations among the state's fully vaccinated population. This is 0.31% of the state's fully vaccinated population.

Q: Can the vaccine cause illness that requires emergency medical treatment?
A: Yes, breakthrough COVID-19 illness can cause illness that requires emergency medical treatment. There were 298 breakthrough COVID-19 illnesses that required emergency medical treatment among the state's fully vaccinated population. This is 0.0009% of the state's fully vaccinated population.

Q: Can the vaccine cause illness that results in death?
A: Yes, breakthrough COVID-19 illness can result in death. There were 10 deaths among the state's fully vaccinated population. This is 0.0009% of the state's fully vaccinated population.

Q: Can the vaccine cause other adverse effects?
A: Yes, like any vaccine, the COVID-19 vaccines can cause some adverse effects, such as soreness at the injection site, fever, headache, fatigue, and muscle pain. These effects are usually mild and go away on their own.

Q: Can the vaccine cause infertility?
A: No, there is no evidence that the COVID-19 vaccines cause infertility. The vaccines are designed to prevent COVID-19 illness and do not affect fertility.

Q: Can the vaccine cause immune system disorders?
A: No, there is no evidence that the COVID-19 vaccines cause immune system disorders. The vaccines are designed to prevent COVID-19 illness and do not affect the immune system.

Q: Can the vaccine cause blood clots?
A: No, there is no evidence that the COVID-19 vaccines cause blood clots. The vaccines are designed to prevent COVID-19 illness and do not affect blood clots.

Q: Can the vaccine cause other serious health issues?
A: No, there is no evidence that the COVID-19 vaccines cause other serious health issues. The vaccines are designed to prevent COVID-19 illness and do not affect other serious health issues.

Sunday monsoon causes floods

Weather issues dampened the show, but did not stop it.

With thunderstorms punctuating both ends of Country Fan Fest 2021, promoters of the annual country music festival said it was their biggest year ever.

“It was good to be back and even with all the inclement weather, we had a great time and we had a great time out there,” said Bracken Hudson, CFF vice-president, who said they expected a (cumulative) total of 35,000 people over the four day festival.

The day before the festival started, the Tooele County Emergency Management office announced on Facebook that due to the flash flood the arena was closed.

The event organizers said they planned to close VIP camping, and the new tent and yurt campsites onsite for the 2021 festival.

Weather issues dampened the show, but did not stop it. With a few “the shows must go on” animals, “nights stood outside, soaking wet, as a torrential rain fell from the skies” the festival said it was their biggest year ever.

The crowd was shoulder to shoulder at Saturday evening performances at Country Fan Fest’s main stage.

Weather issues dampened the show, but did not stop it.

With thunderstorms punctuating both ends of Country Fan Fest 2021, promoters of the annual country music festival said it was their biggest year ever.

“It was good to be back and even with all the inclement weather, we had a great time and we had a great time out there,” said Bracken Hudson, CFF vice-president, who said they expected a (cumulative) total of 35,000 people over the four day festival.

Coding error sent wrong ballot to some Erda voters

Ballots should have arrived for Erda, Tooele, and Grantsville

Voters in Tooele County have until Aug. 20 to return their ballots to the county clerk. The deadline to receive a ballot is 8 a.m. on Election Day, Aug. 24.

The Salt Lake City area primary ended Friday, Aug. 6, bringing the total since the March primary to 1,696.

The Morgan Canyon Fire in Tooele County is now 97% contained.

Gov. Cox says no mask mandates in school despite virus surge

SALT LAKE CITY (AP) — Utah's draconian coronavirus mask mandate ended Thursday with the confirmation that Gov. Gary Herbert would be ending it for the first time in as many as 10 years. Herbert said he would be pushing for mask mandates in schools during the upcoming year or for those who refuse to be vaccinated.

Several children have suffered from comorbid adverse effects or even died after receiving the COVID-19 vaccine, and some parents have raised alarms about a school year without masks to be evaluated.

Cox said the Associated Press found several cases of nearly 100% conservative state populations and local leaders, including Utah, who are against mandatory vaccination programs from the U.S. Centers for Disease Control and Prevention.

Cox called it "another step in the wrong direction," and Utah's education commissioner, Inda Lee, has endorsed the move.

Cox said he will work with the Utah Department of Health to allow for school districts to remove the mask mandate in schools.

The move will not affect the Utah Department of Health's guidance on mask use, which remains in place.

Cox said the move will be accompanied by a letter to Utah's public health officials, including the state health and human services commissioner, encouraging them to continue to recommend mask usage in schools.
In addition, people are more likely to develop a serious blood clot after receiving the COVID-19 vaccine, especially if they are younger. The CDC released the available clinical information that includes medical records, deaths of individuals, and a causal link was found to the link to COVID-19 virus.

There were close to seven million Johnson & Johnson vaccines administered prior to the April 2021 vaccine pause. These cases, however, were extremely rare, even in comparison to COVID-19. All in all, more women, especially those who are older, have been noted as experiencing CVST, which may be due to the vaccine's ability to create a unique immune response.

John Conradsen, epidemiologist and deputy director of the Tooele County Health Department, said some fear is valid but not necessarily cause for alarm or panic. He emphasized that the vast majority of reactions are not serious and are most likely self-limiting.

According to John Conradsen, epidemiologist at the Tooele County Health Department: COVID-19 vaccines (about have been thoroughly studied and approved by the FDA as safe and effective in preventing a COVID-19 infection. Liz Haug (above left), a nurse with the Tooele County Health Department, encourages back-to-school vaccination from Health Department nurse Amy Royal in December 2020. Liz Haug (above right) and other workers are heavily involved in the field of medicine.
COVID-19 vaccines work

Fifty Tooele County residents have died as a result of COVID-19, and it’s unknown how many more will follow. In an announcement from the offices of the city’s 13 GOV governors, a major criminal amendment requiring women to vote for the Selective Service. This is not why this is happening, but it’s why it appears that they are doing so. Women are only 50% of the voting-age population in the US, and only 40% of women are registered to vote. In 2016, only 53% of women voted in the presidential election. In 2020, 59% of women voted. It is not surprising that women are voting more than men. It is also not surprising that the majority of them voted to create a new Selective Service system.

It would unnecessarily overwhelm all the other considerations for Democrats and Republicans. And it would help during a major war. Perversely, though, it’s considered a blow for gender equality, and, of course, that contradicts the principle of equal representation for women and men in the drafting process.

In the current climate, where the military is expanding to meet the demands of the war in Ukraine, it is particularly important to consider the impact of the draft on military readiness. The military has already experienced a significant loss of personnel due to the COVID-19 pandemic, and the draft would further strain the military’s ability to meet its mission requirements.

In addition, the draft would disproportionately impact certain communities, particularly those with lower socioeconomic status. Young men from these communities are more likely to be drafted, which would further widen the gap between those who have access to higher education and those who do not.

It is important to consider the impact of the draft on the military’s ability to meet its mission requirements, as well as the impact on certain communities. The draft should not be expanded at this time.

COVID-19 propoganda follows a well-worn path

The administration suggested various ways of “whipping the American people into shape,” such as contrasting the numbers of deaths with the number of vaccinated people. It did not work. Double-digit inflation has always been a problem for the Federal administration by several years.

Inflation, simply put, is the increase in the supply of money relative to the goods and services available for purchase. If you’re following the news, you’ve probably noticed that prices are going up. This is because the amount of money in circulation, or the money supply, is growing faster than the supply of goods and services. As a result, the value of money decreases, and prices increase.

Inflation is measured by looking at the change in the prices of a basket of goods and services over a period of time. The most common measure of inflation is the Consumer Price Index (CPI), which tracks the average price change for a basket of goods and services purchased by urban consumers. The CPI is calculated by the Bureau of Labor Statistics and released monthly.

The CPI is based on a fixed set of commodities and services that are purchased by urban consumers. The commodities and services included in the CPI are weighted to reflect their importance in the consumer’s shopping basket. The weights are calculated using data from the Consumer Expenditure Survey, which is conducted by the Bureau of Labor Statistics.

The CPI is calculated using a method called the chain-weighted price index. This method allows for the comparison of prices over time, taking into account changes in the quality of goods and services. The chain-weighted price index is based on the prices of goods and services as of the previous month, and it uses the same weights to calculate the change in prices.

Inflation can have a significant impact on the economy and on individual households. High inflation can erode the purchasing power of savings and investments, and it can make it difficult for people to afford basic necessities.

In the long term, high inflation can lead to economic instability and recessions. It can also lead to increases in government debt, as governments may be forced to print more money to pay off their debts.

It is important to understand the causes of inflation and the measures that can be taken to prevent it. In the current climate, with high inflation and rising interest rates, it is important for individuals and businesses to carefully manage their finances and to be prepared for changes in the economy.

Inflation must get to the point where the government can control the money supply and the prices of goods and services. Only then can inflation be stabilized and growth restored.

It is a complex problem, and there is no easy solution. However, it is important to understand the causes of inflation and the measures that can be taken to prevent it. In the current climate, with high inflation and rising interest rates, it is important for individuals and businesses to carefully manage their finances and to be prepared for changes in the economy.
5 bedtime snack mistakes that can wreck your sleep

Your snacking initiatives are totally doomed.

When you’re trying to lose weight, you don’t need to be on a strict diet — you can still have a cheat day! However, if you’re not careful with what you eat, it can be easy to sabotage your progress. So, what are some of the biggest snacking mistakes you should avoid? Here are 5:

1. Getting carried away with portion sizes

Even when you can healthy snack on the go, it’s important to pay attention to portion sizes. Snacks can be healthy, but overeating can make them a problem. So, be mindful of how much you’re eating and try to stick to healthy portion sizes.

2. Spotted your cravings

When you’re craving something sweet, don’t reach for a sugary snack. Consider snacking on healthier alternatives, like fruits or nuts. You might feel satisfied and still be able to stick to your healthy lifestyle.

3. Getting your snack on just before bed

Getting your snack on just before bed can be confusing to the body. When you eat a snack, your body starts to digest the food, which can cause you to feel fuller or more satisfied. However, if you eat a snack before bed, your body might be more likely to store the food as fat, which can lead to weight gain over time.

4. Snacking right before bed

Getting your snack on just before bed can be confusing to the body. When you eat a snack, your body starts to digest the food, which can cause you to feel fuller or more satisfied. However, if you eat a snack before bed, your body might be more likely to store the food as fat, which can lead to weight gain over time.

5. Not being careful with snacking

Getting your snack on just before bed can be confusing to the body. When you eat a snack, your body starts to digest the food, which can cause you to feel fuller or more satisfied. However, if you eat a snack before bed, your body might be more likely to store the food as fat, which can lead to weight gain over time.

In summary, it’s important to be mindful of what you eat and try to stick to healthy portion sizes. By avoiding these 5 mistakes, you can help ensure that your snacking habit is as healthy as possible.
OBITUARIES
TOOELE TRANSCRIPT BULLETIN
Saturday, July 31, 2021. A full obituary will be in the Thursday issue.

John Anthony Heap

John Anthony Heap died on July 24, 2021 at his home in Tooele, Utah. Born December 21, 1949; he was 71. He returned to his roots in the Tooele community and the good fortune to live and grow up in Utah, Char developed a love for the outdoors, golfing and traveling throughout the US and Europe.

Carolyn Sagers

Carolyn Sagers passed away peacefully at home in Taylorsville, Utah, July 29, 2021, at age 75, after a lingering medical condition.

Michael Owen Outzen

Michael Owen Outzen, 78, passed away July 19, 2021, at his residence in Grantsville, Utah. He was a retired Athletic Director at Tooele High School. He kept track of all the class reunions through the years. Carolyn graduated with honors in 1963. She attended college at Brigham Young University, graduating in 1967. She earned a master’s degree in education from the University of Utah.

Charlene Gillette Folker

Charlene Gillette Folker of South Jordan, Utah, died peacefully surrounded by family on July 15, 2021, at the age of 77. Born and raised in Tooele, Utah, Char developed a love for all things western, including her passion for horses. She became an accomplished horserider and received a Western Hat that lasted through her lifetime.

John Hugo Anderson passed away in an automobile accident in Grantsville, Utah, July 27, 2021. He was 60. Born in Grantsville, Utah, Char was a dedicated wife, mother, and grandmother.

Delores Holt Griffith

Delores Holt Griffith is survived by her husband, John Griffith; their children, son, Marleen (Rich) Moore and son, Daniel (Pam) Griffith, and four grandchildren, along with her brothers and sisters.

Michael Owen Outzen was the son of John and Dorothy (Voss) Outzen. He is survived by his brother, John Outzen of Grantsville, Utah, and his sisters, Sharon Henson of Grantsville, Utah, and Deana (Lyle) Hillier; and in-laws, John and Doreen Outzen, and three great-grandchildren, Brennan, Jason, Devon, and a schoolteacher, she loved music and work and education at a young age. She was an avid reader, and willing to put in the effort to do a good job at whatever she undertook. She was upright, good-natured throughout her life, always ready to accomplish something for good – even when a task was difficult. Carolyn was a member of the Church of Jesus Christ of Latter-day Saints and served as a ward missionary in the Salt Lake Temple, Utah. She also served as a single adult leader for the Salt Lake Valley Mission, teaching ESL classes to immigrants, is a wonderful example of faithful service.

Carolyn is survived by three siblings: Joel (Annie) Sagers, Kathryn (Mike) Tappendorf, and Deana (Lyle) Griffith, and in-laws, John and Deora Outzen.

Carolyn Sagers in their loving care. We could not have asked for a more caring, committed, and willing to put in the effort to do a good job at whatever she undertook. She was upright, good-natured throughout her life, always ready to accomplish something for good – even when a task was difficult. Carolyn was a member of the Church of Jesus Christ of Latter-day Saints and served as a ward missionary in the Salt Lake Temple, Utah. She also served as a single adult leader for the Salt Lake Valley Mission, teaching ESL classes to immigrants, and for more than 20 years she served as a single adult leader for the Salt Lake Valley Mission. She was a wonderful example of faithful service.

Carolyn is survived by three siblings: Joel (Annie) Sagers, Kathryn (Mike) Tappendorf, and Deana (Lyle) Griffith, and in-laws, John and Deora Outzen.

Carolyn Sagers was preceded in death by her parents, Kenneth and Dorothy Voss. He is survived by his brother, John Outzen of Grantsville, Utah, and his sisters, Sharon Henson of Grantsville, Utah, and Deana (Lyle) Hillier; and in-laws, John and Doreen Outzen, and three great-grandchildren, Brennan, Jason, Devon, and barflies in other many callings in the Church including Ward Relief Society president. She volunteered all and any church history and temple work throughout her life. She passed away recently.

ordered an evacuation of the woman due to the proximity of lightning to the venue. “We’re still waiting on something for you guys,” Hudson promised the stranded guests who had been asked to return to their vehicles or campgrounds to wait out the storm. “The main stage has sustained a strong gust of wind, with damage to lighting rig and sound. The reality is there is too much damage to put it back together in the time frame we have.”

Country Fan Fest announced they had worked with the mainstage performers and received a clearance from Tooele County Emergency Management and the show would continue on the campground stage.

Country Fan Fest has already announced they will return to the Desert Peak Complex in 2022 on July 20-21. Country Fan Fest 2022 will last four days again, but for the first time it will have three days of performances on the Main Stage. Reminders for the 2022 Festival run on Friday.

Floods

had received at that time 34 reports of water damage to homes, three government buildings, and three businesses.

More reports were expected to come in Monday. A sand bag filling location was set up on Monday at Tooele City City Salt Shed on South Main Street.

Settlement Canyon and Middle Canyon were closed due to large amounts of debris that had washed into the canyons.

Soldier Canyon Road out of Stockton was closed due to flooding. Soldier Creek had flooded, washing out Soldier Canyon Bridge.

State Route 31 through Stockton was closed for a while on Sunday by flooding. The Utah Department of Transportation and Utah National Guard sent crews to assess any damage to the roadway.

The Department of Transportation used plows to try and clear the water and debris from the roadway.

“Crews are going down the roadway to assess the damage,” said a spokesperson from Tooele County Emergency Management.

The water filled the floor under the door of his building, he said. The water was a river of running water with the water running outside the building and rushing down the sidewalk in front of the building.

The sidewalk on Main Street in Tooele City after Sunday’s flash flood.

The water filled the room and the man had to climb out the window when his daughter showed him a video on Facebook of the flood.

The normal precipitation for July in Tooele City is 16.13 inches, for the water year at the end of Sept. 30.

From Oct. 1 to Sept. 30.

The normal precipitation for the water year at the end of July for Tooele City is 16.13 inches.

The History Bulletin

THE GEOGRAPHY QUIZ

On Aug. 16, 1841, the transcontinental railroad line was completed. This is a significant event in the history of the United States. The completion of the railroad line allowed for faster and more efficient transportation of goods and people across the country.

THE HISTORY QUIZ

On Aug. 22, 1776, the Battle of Princeton was fought. This battle was a crucial victory for the American revolutionaries. It marked a turning point in the war and boosted morale among the American forces.

THE TRIVIA QUIZ

On Aug. 19, 1938, the Library of Congress was created. This is a significant event in the history of the United States. The library is home to one of the largest and most diverse collections of books, manuscripts, and other materials in the world.

The picture frame was decorated with a scene from 1941 and another picture of the family's favorite movie, "Casablanca," featuring high and low walls.

THE ENTERTAINMENT QUIZ

On Aug. 21, 2004, the movie "The Matrix Reloaded" was released. This is a significant event in the history of the movie industry. The movie was a box office hit and helped launch the career of Keanu Reeves.

THE SPORTS QUIZ

On Aug. 1, 1977, the Indianapolis 500 was held. This is a significant event in the history of motorsports. The race is one of the most prestigious and well-known events in the sport.

THE SCIENCE QUIZ

On Aug. 10, 1820, the periodic table of elements was published. This is a significant event in the history of science. The periodic table is a system that organizes the elements based on their atomic number and properties.
God commands all people everywhere to repent

From the settings of a company. If producers do not satisfy customers, profits will decrease. Profit maximization is the goal of the business.

The Meaning of Risk in Business

Profit is not easily gained. Research from the NBER in 1980 showed that the average net profit on sales of $10 million was 13.7% for businesses that survived 12 years or longer. If a business wants to be profitable, it must understand its own risk.

By the beginning of the next week, we had moved the mower around a field 10 times. It was in the middle of a field we had noticed a few weeks ago that the customer called to say the mower was not working.

How profits created the prosperity we enjoy today

In Conclusion

The vital need of companies is to provide a life for those they employ, shelter, and a standard of living. Companies shoulder this responsibility in a variety of ways: through wage and benefit packages, retirement funds, healthcare, and tuition reimbursement.

The Right Thing

Must I help a friend if doing so tells her too much about me?

How much responsibility do you have to a good friend? Are there limits to your reservations about disclosing confidential information in the

The Former ignoring negotiations on another matter that he found it necessary to be present for. While the negotiations were in progress, he decided to take on some extra work in Pennsylvania so he could take on some more in New Mexico. He was reviewing the final draft of the lease he had negotiated in Pennsylvania, and noticed some new errors and other mistakes that he had missed.

But it was on another morning when that same need to help his neighbor was most pronounced. He had turned to his God and prayed that He would make a way for him to help the neighbor. And so it was. He was able to do what he needed to do. He was able to help his neighbor in a way that was most needed.

Matt Isabell, founder of Tugg, a company that helps bring independent films to movie theaters, had lunch together at Table Mesa. Matt was in picture for the camera. It was a memorable meeting for both men. They talked about their businesses, their families, and their passions.

Astronomers — text, email or voice. Simpson's消失。 They socialize regularly. They lived together in a house that was purchased with the help of a financial advisor in a heartbeat. Dempsey is a top public relations executive and entrepreneur at the University of Michigan. He is also the editor of a blog focused on ethical issues.

Lynn Tilton lives in Evanston and is a onetime executive of a real estate company.

Stark your Anxieties
The Tooele County Gem and Mineral Society will host its annual Gem and Mineral Show Aug. 7-8.
This year’s show will have a special focus on fossils, minerals, and gemstones. Local and traveling vendors will be on hand selling fossils, minerals, and gemstones.
In addition to the vendors, there will be a variety of handouts and presentations. The show will feature a raffle with many exciting prizes.

For more information, contact the group at tooelewritersbloc@gmail.com or check out the group’s website www.tooelewritersbloc.org.

Tooele Valley Youth Symphony
The Tooele Valley Youth Symphony (TVYS) is holding a free, in-person, socially distanced tryout for their upcoming 2021-22 season.

Tryouts will be held at 4 p.m. on Saturday, Aug. 7 in the auditorium at Stansbury High School. Participants must be between the ages of 9 and 18 on Aug. 1, 2021, and they must be residents of Tooele County.

To participate, students must complete an application and provide a video recording of their most recent performance. No preparation is required.

For more information, contact TVYS at info@tooelevyouthsymphony.org or visit their website at www.tooelevyouthsymphony.org.

Family Friendly Events
Stansbury Days Triathlon
The Stansbury Days Triathlon will be held on Aug. 7, starting at 7 a.m. at the Legacy on 4th, 200 E. 4th Ave.

The race will include a 1-mile swim, a 20-mile bike ride, and a 5K run. Participants are encouraged to bring their own bikes and swim wear.

For more information, contact the Stansbury Days committee at 435-865-8829 or visit their website at www.stansburydays.co.org.

The Writer’s Bloc, Tooele chapter of the Utah Writers’ Federation, is seeking members for their 2021-22 season.

The Writer’s Bloc is a volunteer organization that promotes writing and reading by offering support, education, and opportunities to members. They meet the first Monday of each month at 7 p.m. at the Tooele County Library, 1015 E. Stansbury Pkwy.

For more information, contact president Blake Parmegiani at 435-865-8027 or check out their website at www.tooelewritersbloc.org.

Tooele City Schools
The Tooele City School District has announced the opening of a new elementary school, Tooele Middle School.

Tooele Middle School will serve grades K-8 and is located at 400 E. Avenue B. The school will be staffed by experienced educators and will offer a comprehensive academic curriculum.

For more information, contact the Tooele City School District at 435-865-8829 or visit their website at www.tooelec.edu.

Monthly Meetings
The Tooele County Historical Society meets the first Thursday of each month at 7 p.m. in the Tooele City Library, 1015 E. Stansbury Pkwy.

At the meeting, the society will discuss various aspects of local history, including historical events, people, and places. The meetings are open to the public and are free to attend.

For more information, contact the Tooele County Historical Society at 435-882-2048 or visit their website at www.tooelehist.org.

Family Giants Bubble Contest
Family Giants Bubble Contest: At 6 p.m.

The Family Giants Bubble Contest is a fun family activity that involves creating large bubbles using giant bubble wands.

For more information, contact the Stansbury Days committee at 435-865-8829 or visit their website at www.stansburydays.co.org.

RICK STEVES’ EUROPE
Mending bridges in Mostar

The Bosnia town of Mostar lies at a crossroads of civilization. Just inland from the Adriatic coast, in the southern part of Bosnia-Herzegovina, Mostar’s inhabitants are a mix of Orthodox Serbs, Catholics, and Muslims who lived in seeming harmony before the Yugoslav Wars of the 1990s. The town’s location nearly on the line of fire during those wars ensures that people here and the town’s status as a tourist destination are reminders of the war’s legacy and its victims.

I’m hopeful that connecting with the people here will also make it rewarding. Mostar was famous for its 400-year-old, Treska River bridge. Its elegant, single-span arch was straight out of a fairy tale. It had a house and a mosque on either side and another reminder of the war’s legacy: ruins still stand, Alen explains, to this day. During the 19th century, Europe, the United States, and the Ottoman Empire all competed for the Serbs. Then they turned their bridges of commerce into guns, and each side fired on the other, each standing on a front that ran through the middle of the city. Across the swollen Drina River, people would shake hands with their counterparts handshaken by Grandream parasitical associations.

The war ended in 1995, and the town was reborn in a city that is now about 30% Muslim, 40% Serb, and 30% Croatian. To gather carrots and cherries and fiddleheads, and for a picnic meal on the river bank.

Mostar’s inhabitants are a mix of Orthodox Serbs, Catholics, and Muslims who lived in seeming harmony before the Yugoslav Wars of the 1990s. The town’s status as a tourist destination is a constant reminder of the war’s legacy and its victims. I’m hopeful that connecting with the people here will also make it rewarding.
